Next, the Commissioners were presented with consideration of approval to appoint e-Builder, Inc. to provide Electronic Project Management System and Technical Support Services to the Public Building Commission. The Commissioners were advised that e-Builder, Inc. along with six other firms submitted proposals to the Water Reclamation District of Greater Chicago (MWRD) following an extensive procurement. The proposals were evaluated by MWRD’s selection advisory committee comprised of staff from Information and Technology, Engineering and Procurement staff. MWRD selected e-Builder to provide the required services after determining that it had a user-friendly system, multiple relevant local municipal references, instant availability of the required system components and on-going research and development components. It was recommended that PBC adopt MWRD’s procurement process, requirements and certain terms and conditions of MWRD’s contract with e-Builder as a means of promoting

intergovernmental efficiency in the award of contracts. Accordingly, PBC staff proposed appointing e-Builder to provide electronic project management system and technical support services for a term to expire on February 1, 2021 in an amount not to exceed \$1,000,000 on a task order basis. Upon motion duly made and seconded, the following resolution was adopted:

RESOLUTION NO. 8483

BE IT RESOLVED by the Board of Commissioners of the Public Building Commission of Chicago that e-Builder, Inc. is hereby appointed to provide Electronic Project Management System and Technical Support Services to the Public Building Commission for a term to expire on February 1, 2021 in an amount not to exceed \$1,000,000 on a Task Order basis.

The next item on the agenda was consideration of approval of an amendment to the Intergovernmental Agreement (IGA) between the Public Building Commission (PBC) and the City of Chicago (City) which provides that the City's Office of Inspector General will also serve as the Inspector General for the Public Building Commission. PBC and the City had previously entered into an IGA and a Memorandum of Understanding for Inspector General Services dated January 1, 2015. Inasmuch as the expiration of the current IGA will soon expire, it was recommended that the parties extend the term of the IGA by an amendment through December 31, 2023, provided, however, that either party may terminate the IGA at any time upon 30 days

prior notice to the other party. On motion duly made and seconded, the following resolution was adopted:

RESOLUTION NO. 8484

BE IT RESOLVED by the Board of Commissioners of the Public Building Commission of Chicago that an Amendment to the Intergovernmental Agreement between the Public Building Commission and the City of Chicago which provides that the Inspector General of the City of Chicago will provide inspector general services for the Public Building Commission for a term that will extend through December 31, 2023 is hereby approved.

BE IT FURTHER RESOLVED that the Executive Director and appropriate officers of the Public Building Commission are hereby authorized and directed to undertake such actions and to execute such documents, upon approval as to form and legality by Legal Counsel, as may be necessary and appropriate in order to implement this Resolution.

The next item on the agenda was a report by the Executive Director regarding regular reports, development status and other matters. She advised the Commissioners that the Public Building Commission has successfully completed its procurement process for professional design services which will provide PBC with a uniform, accessible, and current snapshot of firms interested in providing architectural services for PBC projects. Eligible firms were requested to submit Letters of Interest and Qualifications (LIQ) which included detailed information regarding the qualifications, experience and other relevant criteria. The responses were evaluated by an Evaluation Committee to determine the firms that should be included in PBC's database of eligible architects or engineers to provide professional design services to the Public Building Commission. She also advised that PBC conducted an information session regarding

the LIQ process for architectural and engineering services on September 20, 2018. As a result of the initiatives by PBC, 112 firms were enrolled in the Architect of Record LIQ database, and 49 firms were included on PBC's Engineer of Record database. The Executive Director was commended for successfully updating the professional design services databases and her report was accepted.

The next item on the agenda was consideration of approval of the appointment of firms to provide Architect of Record and Engineer of Record Services to the Public Building Commission for various projects. The Commissioners were advised that PBC's LIQ databases for architect of record and engineer of record services were reviewed to determine firms that demonstrated recent, relevant experience with various User Agencies including the City of Chicago, Board of Education of the City of Chicago, Chicago Public Library, Chicago Park District, the Chicago Fire Department and other municipal projects. Following the evaluation process, the following MBE/WBE firms were recommended to provide Architect of Record/Engineer of Record services for the projects listed below: Brooks College Preparatory Academy Turf Field Repairs (Brook Architecture, Inc.); Dore Elementary School Pre-K Expansion (FORMA Architecture, Ltd.); Prosser Career Academy Education Program Renovations (Tilton, Kelly + Bell, LLC); Rickover High School Education Program Renovations (Globetrotters Engineering Corporation/KOO & Associates, Ltd.); Decatur Classical Elementary School Annex and Renovation (Muller & Muller, Ltd.); McCutcheon Elementary School Annex and Renovation (STL Architects, Inc.); McDade Classical Elementary School Annex and Renovation (Moody Nolan, Inc./Johnson & Lee, Ltd.); Palmer Elementary School Annex and Renovation (Bauer Latoza Studio, Ltd.); Poe Classical Elementary School Annex and Renovation (Moody Nolan/Onyx Architecture); Rogers Elementary School Annex and
