The Challenges

*Why General Contractors and Subs refused to bid
PBC work - - Slow Pay / No Pay:*

Welcome

Introduction

*How the PBC is
Changing*

Procurement

Compliance

*Projects in
Development*

*Question &
Answer*

Very slow monthly payment

Excessively long delays in Change Order approval and payment

Close out and final payment often took a year or longer

Many PBC projects ended in litigation

Mechanic's Liens

Defaults

Bankruptcies

Claims for money and time by General Contractors

Getting GCs and Subs to Bid PBC Projects

Changed contract and procedures to improve and speed Contractor payments

Welcome

Introduction

How the PBC is Changing

Procurement

Compliance

Projects in Development

Question & Answer

1. Monthly payment estimates now paid to GCs within *30 days* of invoice.

Contract requires GC to pay Subs within 14 days of PBC payment to the GC.

Payments to GCs are posted on web and in job trailer.

2. Retainage reduced from 5% to 3% at 75% completion, 3% to 1% at Substantial Completion, 1% paid at close out. GCs must pay subs all retainage when sub's work is completed - whether the GC has received final retainage or not.
3. 100% pay for material stored off site.

*Question &
Answer*

Fast Track Change Order Approvals. Field Orders and claims reviewed weekly at Round Table

1. Issues are resolved expeditiously;
2. Written direction is provided to contractors before work proceeds;
3. Change Orders and payment follow quickly.

*Question &
Answer*

PBC Senior Management continues to meet the Chicago's General Contractors. We continue to ask what the PBC could do to be a better owner. We listen to their concerns and continue to make changes. We also meet with and have an "open door" for Subcontractors to respond to their concerns and perspective on the same issues.

Quality Contractors Returning to PBC

Nine of Chicago's 25 Largest Contractors are now seeking to bid PBC work as Pre-qualified General Contractors - - including several who have never been PBC GCs and some who left but have now come back.

CONTRACTOR OPEN HOUSE,

Building a Better Chicago

Construction Process Improvements

1. Site Preparation by Job Order Contractors
2. Project Specific Pre-Qualification of General Contractors

Contractors evaluated based upon:

- Experience of firm building projects of similar size and complexity
- Experience and qualifications management and staff
- Finances and bonding capacity

3. Mandatory pre-bid technical review of architectural and all engineering disciplines to make certain contractor's understand plans and specifications.
