LEED Certifications

The PBC is nearly two years ahead of schedule on meeting the goal set by Chairman Emanuel in June 2011 of doubling the number of LEED certified projects in four years.

With the announcement of a Platinum certification at Engine Co. 16, there are a total of 72 LEED Certified projects in Chicago, nearly doubling the certified projects at the time of the announcement with only 10 more to go.

Chicago continues to lead the nation in LEED certified projects with Los Angeles following at 43, followed by Dallas and Houston.

Outreach Event

Public Building Commission of Chicago Outreach Event

Friday, April 12, 2013
9:00 a.m. – 11:00 a.m.

Registration

9:00 a.m. – 9:30 a.m.
at Kennedy-King College
Main Theater
740 W. 63rd Street

The Public Building Commission of Chicago is conducting an outreach in support of an upcoming design-build procurement. Interested construction companies and design firms should attend. The firms will be encouraged to submit proposals for renovation projects for completion ending in August of 2013.
