The Bidder must document on Bid Form 3 the methodology used to arrive at the adjustment factor amount to the satisfaction of the Commission. Failure to provide such justification will result in the bid being declared unbalanced and Article 7.D will apply. Bidders must be cautioned that the Non Pre-priced Adjustment Factor must be reasonable and take into account all the costs the Bidder would experience above and beyond the direct cost of the work performance, such as, but not limited to overheads and profits. **Bid Form 3 must contain adequate description of the methodology, data and information to justify that the Non Pre-priced Adjustment Factor is reasonable. Failure to provide such justification will result in the bid being declared unbalanced and Article 7.D will apply.**

**8. SELF-PERFORMANCE**

The Contractor shall on a monthly basis, provide a report to the Commission showing the amount of self performance per Work Order and accumulative amount of self-performance. ### **21. WITHDRAWAL OF BIDS BEFORE BID OPENING**

Any Bidder may withdraw its bid by letter, facsimile, telegraphic request, or by personally securing, with proper identification, the submitted bid proposal at any time prior to the time fixed for opening of bids. A telephonic request to withdraw a bid will not be considered.

### **22. OPENING OF BIDS**

At the time and place fixed for the opening of bids, the Commission will cause to be opened and publicly read aloud every bid received within the time set for receiving bids irrespective of any irregularities therein. Bidders and other persons properly interested may be present in person or by representative.

### **23. EVALUATION OF BIDS**

- C. The failure of the successful Bidder to supply the required Performance and Payment Bond or evidence of the required insurance coverage within five (5) days of notice, or within such extended period as the Commission may grant based upon reasons determined sufficient by the Commission, shall constitute a default and the Commission may either award the Contract to the next lowest responsible bidder or re-advertise for bids. The difference between the amount of its bid and the amount for which a contract for the work is subsequently executed may be charged against the Bidder, irrespective of whether the amount thus due exceeds the amount of the bid security. If a more favorable bid is received by re-advertising, the defaulting Bidder shall have no claim against the Commission for a refund. Because of the difficulty of ascertaining the damage caused to the Commission, such sum shall be considered liquidated damages and shall not constitute a penalty. The election by the Commission to grant an extension to the period allowed for the bidder to provide an acceptable performance and payment bond and/or evidence of insurance coverage shall not entitle the bidder to an extension of time required to complete the Work.

A pre-bid protest must be filed five (5) days before the bid opening date, a pre-award protest must be filed no later than ten (10) days after the bid opening date, and a post-award protest must be filed no later than ten (10) days after the award of the Contract.

## Explanations

COOK COUNTY

TRUCK DRIVERS (WEST) - That part of the county West of Barrington Road.

The following list is considered as those days for which holiday rates of wages for work performed apply: New Years Day, Memorial/Decoration Day, Fourth of July, Labor Day, Veterans Day, Thanksgiving Day, Christmas Day. Generally, any of these holidays which fall on a Sunday is celebrated on the following Monday. This then makes work performed on that Monday payable at the appropriate overtime rate for holiday pay. Common practice in a given local may alter certain days of celebration such as the day after Thanksgiving for Veterans Day. If in doubt, please check with IDOL.

## EXPLANATION OF CLASSES

ASBESTOS - GENERAL - removal of asbestos material/mold and hazardous materials from any place in a building, including mechanical systems where those mechanical systems are to be removed. This includes the removal of asbestos materials/mold and hazardous materials from ductwork or pipes in a building when the building is to be demolished at the time or at some close future date.

ASBESTOS - MECHANICAL - removal of asbestos material from mechanical systems, such as pipes, ducts, and boilers, where the mechanical systems are to remain.

**3. Community Hiring Bonuses**

In order to encourage maximum employment of interested and available residents of the project community on this Contract, the following bonus calculations shall apply:

- A. In calculating the hours worked by minority and women journeyworkers, apprentices, and laborers under the Award Criteria set out in Section 5 "Basis of Award (Award Criteria)," all hours worked by minority and women journeyworkers, existing apprentices, and laborers who are residents of the project community shall be multiplied by 1.5.
- B. In calculating the hours worked by minority and women apprentices under the Award Criteria set out in Section 5 "Basis of Award (Award Criteria)," all hours worked in new apprenticeships by minority and women apprentices who are residents of the project community shall be multiplied by 2.0.
- C. Definitions
  - 1. "Actual residents of the City of Chicago" shall mean persons domiciled within the City of Chicago. The domicile is an individual's one and only true, fixed, and permanent home and principal establishment.
  - 2. "Residents of the project community" shall mean persons domiciled within the Ward in which the Site is located.
  - 3. "New Apprenticeship" shall mean an apprenticeship begun for a person who has not held an apprenticeship card within ninety (90) days prior to beginning the project.

**4. Liquidated Damages**

The Contractor is obligated to meet the total commitment made in each category, subject to liquidated damages as described below for non-compliance. The Contractor hereby consents and agrees that, in the event of failure to comply with each of the minimum commitments submitted in the Proposal on Lines 10, 12, 14, 16, 18 and 20 of the Canvassing Formula, covering Journeyworkers, Apprentices, and Laborers respectively, the following shall apply to determine a monetary sum to be withheld from the final payment to the Contractor. Since the Job Order Contract is a form of indefinite quantity contract, Liquidated Damages will be calculated based on the sum amounts of the Work Orders awarded to the Contractor.

For each 1% deficiency of minority Journeyworkers not utilized toward the goal (Line 10) four cents per hundred dollars of the Awarded Work Order Amount, calculated as follows:

$$\frac{\text{Awarded Work Order Amount} \times .04}{100}$$

Each one percent (1%) deficiency of shortfall toward the goal (Line 16) for female Journeyworkers shall be computed in the same way.

For each 1 % deficiency of minority Apprentices not utilized toward the goal (Line 12) three cents per hundred dollars of the Awarded Contract Amount, calculated as follows:

$$\frac{\text{Awarded Work Order Amount} \times .03}{100}$$

Each one percent (1%) deficiency of shortfall toward the goal (Line 18) for female Apprentices shall be computed in the same way.

**PUBLIC BUILDING COMMISSION OF CHICAGO**

Contract No. 1452

For each 1 % deficiency of minority Laborers not utilized toward the goal (Line 14) one cent per hundred dollars of the Awarded Contract Amount, calculated as follows:

Awarded Work Order Amount X .01

100

Each one percent (1%) deficiency of shortfall toward the goal (Line 20) for female Laborers shall be computed in the same way.

Liquidated damages, if any, will be calculated for the first pay requests reflecting fifty percent (50%) completion, seventy-five percent (75%) completion, and ninety percent (90%) completion, respectively, based upon the Contractor's pay request together with all attendant certified payrolls and other required documentation of minority and women employment. The accrued liquidated damages and interest will be added to the retention provided elsewhere in this contract. The amount of liquidated damages due to the Commission under this provision will bear compound interest at the rate of 5% per annum, compounded monthly from the date of the Notice to Proceed to the date of approval of a deductive change order for liquidated damages. Should the total amount of liquidated damages due under all provisions of this contract exceed the amount of the Commission's retainage, compound interest on the amount over and above the retainage will continue to accrue until the entire amount of liquidated damages and compound interest is paid to the Commission.

The Commission is aware that certain subcontract agreements under this contract may require subcontractors to contribute to payment of liquidated damages assessed under this provision. Should enforcement of subcontract liquidated damages provisions result in an aggregate total of subcontractor liquidated damages greater than the liquidated damages assessed hereunder against Contractor, then Contractor must pay the excess pro rata as a bonus to each subcontractor exceeding its subcontract commitments for minority or women employment, or both.

**5. Reporting**

In accordance with this commitment, the Contractor must submit both the Contractor's Payroll Record Form and the Contractor's Recapitulation of Minority and Female Worker Hours and Percentages Form on a monthly basis. All Subcontractors shall be listed on the Contractor's Recapitulation Form whether active or not. For the purpose of this report, the following group categories will be used:

The classification "White" includes person of Indo-European descent.

The classification "Black" or "African-American" includes persons having origins in any of the black racial groups of Africa.

The classification "Hispanic" includes persons whose origins are from Mexico, Puerto Rico, Cuba, Central or South America, the Caribbean Islands or other Spanish culture or origin, regardless of race.

The classification "Native American" includes persons who are Native Americans by virtue of tribal association.

The classification "Asian-Pacific" includes persons whose origins are from East Asia, Southeast Asia, the Pacific Islands or the Indian sub-continent.

The classification "Other" includes qualified individuals with disabilities who meet legitimate skill, experience, education or other requirements of employment positions held or sought and who perform the essential function with or without reasonable accommodation and other groups or other individuals found by the Public Building Commission of Chicago to be socially and economically disadvantaged and to have suffered actual racial or ethnic discrimination and decreased opportunities to compete in Chicago area markets.

## BID FORM 3 - CALCULATION OF THE BID ADJUSTMENT FACTORS

CONFIDENTIAL

### INSTRUCTIONS:

It is expected that the Bidder perform a detail analysis of the CTC®. Explain in detail the process you used to evaluate the pricing in the CTC® and how that evaluation process resulted in the bid adjustment factors. The Bidder must demonstrate to the Commission that adequate analysis was conducted to justify your bid adjustment factors. This must be in detail for each of the three adjustment factors below. Use additional sheets as required.

### PART 1: CALCULATION OF THE NORMAL WORKING HOURS ADJUSTMENT FACTOR:

OVC utilized a Sample Project and developed a scope of work which included Excavation, Concrete, Iron work & Landscaping. A cost for this work was calculated using the line item values presented in the CTC as issued for Bid by the PBC. The estimated cost for the Sample Project amounted to \$452,708.52 at a presumed Bid Factor of 1.0000.

OVC then invited four (4) familiar subcontractors to present proposals for the same work according to their field of expertise. The accumulated costs collected from the subcontractors amounted to \$375,050.00. (See attached worksheet.)

It was determined that the difference in cost for each scope of work amounted to an average change of 15.2249%.

Assigning the CTC a Bid Factor of 1.0000, the average change of 15.2249% created a relative subcontractor bid factor of 0.8478, which represents the CTC Purchase Power for the Cost of Goods and Services.

To this value, OVC then adjusted this 0.8478 factor to account for Overhead and Profit as follows:

= 0.8478 as Cost of Goods and Services  
+ 0.0551 as Overhead Costs equaling 6.5% ( $0.8478 \times 6.5\%$ )  
+ 0.1780 as Unrealized Profit Target of 21.0% ( $0.8478 \times 21.0\%$ )  
= 1.0809 as a "Normal Working Hours Adjustment Factor"

For further information see the attached documentation.

### PART 2: CALCULATION OF THE OTHER THAN NORMAL WORKING HOURS ADJUSTMENT FACTOR:

The increase for overtime work was calculated with the understanding the additional cost for hourly labor rates amount to 20.18%. For example, assume the bare cost for a union bricklayer is \$62.55 per hour. The hourly cost of overtime (1.5) increases to \$75.17. This amounts to an increase of 20.18%.

However, it was important to recognize that the cost of each project includes both labor AND material. For the sake of this bid, OVC assigned a ration of 35% material and 65% labor. The OVC price model assumes that cost of material remains the same whether installed during the day or at night.

Consequently, the additional cost to the project for Overtime labor amounts to less than %10.00. (9.87%)

OVC adjusted the bid factor as follows:

= 1.0809 as a "Normal Working Hours Adjustment Factor"  
+ 0.10668 as Overtime Increase of 9.87% ( $1.0809 \times 9.87\%$ )  
= 1.1876 as an "Other Than Normal Working Hours Adjustment Factor"

### PART 3: CALCULATION OF THE NON PRE-PRICED ADJUSTMENT FACTOR:

In those rare instances when the work requires the use Non-Priced items, OVC calculated the factor this way:

= 1.0000 as Base Value for Non Pre Priced Costs  
+ 0.0650 as Overhead Costs equaling 6.5%  
+ 0.0150 as Realized Profit Value of 1.5% (Reduced for minimum risk to contractor.)  
= 1.0800 as "Non Pre-priced Adjustment Factor"

PBC Sample Project

PBC JOC #1452

The following is documentation in order to show the Public Buildings Commission how Old Veteran Construction, Inc. calculated normal working hours, other than working hours, and non pre-priced adjustment factors.

OVC created a sample project similar to the type of work that would be issued to OVC by the PBC (see attached sample project)

OVC built a progen proposal out of CTC using a sample project to gather quantities and cost, (see attached documentations), which gave OVC the total cost of the project.

OVC then solicited prices from subcontractors requesting proposals per there scope of work (see attached).
