- A. Award will be made to the lowest responsive, responsible bidder. The lowest bid will be determined by the Award Criteria Figure, Section Five, herein.
- B. It is the current intention of the Commission to award one (1) Job Order Contract under this solicitation. However, the Commission reserves the right to make additional awards under this solicitation for a period of 210 days after bid opening; if an unexpected increase in volume of work occurs which will exceed the capacity of the Contractor to whom the Contract was awarded; or, if the Contractor to whom the Contract was awarded fails to perform the contract.
- C. If additional awards are made, the awards will be made in sequence beginning with the next lowest responsive, responsible Bidder.
- D. Unbalanced Bid: Bids that the Commission considers in its sole opinion to be materially unbalanced or not responsible will be rejected.
- E. Bidders must submit three adjustment factors. Each factor must take into consideration all the direct costs and indirect costs of doing business with the Commission.
 - 1. The first adjustment factor is to be applied against the prices in the CTC® for work to be accomplished during normal working hours. The Commission encourages Contractors to bid as competitively as possible, however experience has shown that winning Contractors whose bid for the normal working hours adjustment factor is below 1.1500 have had difficulty in preparing accurate price proposals during implementation. The Bidder must document on Bid Form 3 the methodology used to arrive at the adjustment factor amount to the satisfaction of the Commission. Failure to provide such justification will result in the bid being declared unbalanced and Article 7.D will apply. The Bidder must first of all evaluate the Direct Cost Unit Prices contained in the CTC® against the

Contract No. 1452

Bidder's Direct Costs. Secondly, the Bidder must demonstrate to the satisfaction of the Commission that the Bidder's adjustment factors have taken into account all the costs associated with the project as outlined below and all other costs that the Bidder anticipates.

- a. The bidder must be aware that there are numerous business and construction related costs not included in the unit costs and <u>must be</u> considered in the adjustment factors. Following is a synopsis of some of these costs which are shown more completely and in more detail in Book 3 the Construction Task Catalog® pages 00-1 to 00-8.
 - (1) Business costs, including but not limited to:
 - (a) Overhead costs such as: home office overhead; insurance; bonds; training; management; supervision; project office staff; and mobilization.
 - (b) Profit
 - (c) Subcontractor's overhead and profit
 - (d) All taxes which are not waived
 - (e) The cost of fringe benefits, payroll taxes, worker's compensation, insurance costs and any other payment mandated by law in connection with labor that exceeds the labor rate allowances.
 - (2) Construction related costs, including but not limited to:
 - Services required to obtain filings and permits,
 - (b) Costs incurred to investigate work sites, develop work scopes, preparation and modification of proposals sketches, drawings, submittals, as-builts drawings and other records
 - (c) Engineering and architectural services other than those required for stamped drawings
 - (d) Construction vehicles
 - (e) The difference in cost of equipment ownership vs. equipment rental
 - (f) Personnel safety equipment
 - (g) Traffic barricades, flagmen, groundmen
 - (h) Protection of all surfaces during construction
 - (i) Daily clean-up and professional final project clean-up
 - (j) Difficult and extreme working conditions
 - (k) Environmental Consultant Services
 - (I) The LEED requirements associated with each Work Order
 - (3) Price variations.
 - (a) Any price variations or fluctuations anticipated over the year must be taken into account in the Bidder's adjustment factors.
- 2. The second adjustment factor is to be applied against the prices in the CTC® for work to be accomplished during other than normal working hours. This factor must take into account all the additional costs of working on overtime, shift work and double time basis. The Other Than Normal Working Hours Adjustment Factor must be greater than the Normal Hours Adjustment Factor by an amount that is reasonable and considered consistent with industry standards. Bid Form 3 must contain adequate description of the methodology, data and information to justify that the Other Than Normal Working Hours Adjustment Factor is reasonable. Failure to provide such

CONTRACT NO. 1452

justification will result in the bid being declared unbalanced and Article 7.D will apply.

3. The third adjustment factor is to be applied to work tasks that are considered non pre-priced. Bidders must be cautioned that the Non Pre-priced Adjustment Factor must be reasonable and take into account all the costs the Bidder would experience above and beyond the direct cost of the work performance, such as, but not limited to overheads and profits. Bid Form 3 must contain adequate description of the methodology, data and information to justify that the Non Pre-priced Adjustment Factor is reasonable. Failure to provide such justification will result in the bid being declared unbalanced and Article 7.D will apply.

8. SELF-PERFORMANCE

The Contractor shall perform with its own organization and forces not less than 10% of the total amount of labor hours performed at the Project site. Note: The Commission has determined that the percentage of self-performance is a critical performance criteria. As such, failure to achieve or exceed the self-performance requirements will constitute a reason to terminate the Contract. The Contractor shall on a monthly basis, provide a report to the Commission showing the amount of self-performance per Work Order and accumulative amount of self-performance. Confirmation of the amount of self-performance will be made by examination of the Contractors Certified Payrolls. The percentage calculation does not include field superintendents or office management personnel.

9. COPIES OF DRAWINGS AND SPECIFICATIONS FURNISHED

The Commission will furnish to the Contractor one (1) set of electronic documentation and one (1) copy of Drawings and Specifications for the execution of the Work. The Contractor is responsible for obtaining additional copies at its own cost.

10. NOTICES

In accordance with Book 2 Section 23.05 "Notices," Notices must be addressed as follows:

- A. If to the Commission, notices must be addressed to the attention of the Commission Representative with copies to: the Executive Director.
- B. If to the Contractor, notices must be sent to the address identified on the title page of this Book 1 with copies to: the Contractor's Bonding Company

11. COMMUNITY HIRING INCENTIVES

Community hiring is not a requirement of this Contract. However, the Contractor can take advantage of the incentives. See Section Five "Basis of Award (Award Criteria)" and in Book 2, Section 21.03 "Chicago Residents as Employees" for details.

12. LICENSING

In addition to all other applicable licenses and certifications, the general contractor is required to submit copy of the <u>Class A.</u> General Contractor License issued by the Department of Buildings of the City of Chicago.

SECTION TWO - INSTRUCTIONS TO BIDDERS

The required insurance to be carried is not limited by any limitations expressed in the indemnification language in this Contract or any limitation placed on the indemnity in this Contract given as a matter of law.

COOK COUNTY

TRUCK DRIVERS (WEST) - That part of the county West of Barrington Road.

The following list is considered as those days for which holiday rates of wages for work performed apply: New Years Day, Memorial/Decoration Day, Fourth of July, Labor Day, Veterans Day, Thanksgiving Day, Christmas Day. Generally, any of these holidays which fall on a Sunday is celebrated on the following Monday. This then makes work performed on that Monday payable at the appropriate overtime rate for holiday pay. Common practice in a given local may alter certain days of celebration such as the day after Thanksgiving for Veterans Day. If in doubt, please check with IDOL.

EXPLANATION OF CLASSES

ASBESTOS - GENERAL - removal of asbestos material/mold and hazardous materials from any place in a building, including mechanical systems where those mechanical systems are to be removed. This includes the removal of asbestos materials/mold and hazardous materials from ductwork or pipes in a building when the building is to be demolished at the time or at some close future date.

ASBESTOS - MECHANICAL - removal of asbestos material from mechanical systems, such as pipes, ducts, and boilers, where the mechanical systems are to remain.

BID FORM 2 - AWARD CRITERIA CALCULATION

To promote the intended goal of economic opportunity and maximize the use of minority personnel on this project, the Public Building Commission of Chicago has established the Award Criteria formula for the purpose of evaluating proposals and awarding the contract. A contract may be awarded to the responsible bidder with the lowest Award Criteria Figure. The Public Building Commission of Chicago reserves the right to check all calculations for accuracy. The fulfillment of the Award Criteria does not abrogate the responsibilities of the Contractor to comply with federal and state requirements under the *Equal Employment Act* and the *Illinois Human Rights Act*.

1. Instructions

The Bidder shall complete the Award Criteria Formula and transfer the final Award Criteria Figure - Line 23 to the space provided on Bid Form 1. Failure to complete the formula may be cause for rejection of the Bidder's proposal. The successful bidder will be held responsible for adhering to the figures submitted in Lines 10, 12, 14, 16, 18 and 20 during construction of the project.

Lines 10, 12 and 14 in the formula shall not be greater than fifty percent (50%) in each category for the sole purpose of determining award of the contract. Similarly, lines 16, 18 and 20 shall not be greater than ten (10%) percent in each category for the purpose of award criteria only. The fifty percent (50%) and ten percent (10%) goals are not intended to restrict the total number of minority and female employees to be used on the project, but only to establish limiting figures for use in the formula. Journeyworker includes journeyworkers from the major trades listed herein, and the teamsters. Watchmen and custodial workers are not creditable in the formula.

3. Community Hiring Bonuses

In order to encourage maximum employment of interested and available residents of the project community on this Contract, the following bonus calculations shall apply:

- A. In calculating the hours worked by minority and women journeyworkers, apprentices, and laborers under the Award Criteria set out in Section 5 "Basis of Award (Award Criteria)," all hours worked by minority and women journeyworkers, existing apprentices, and laborers who are residents of the project community shall be multiplied by 1.5.
- B. In calculating the hours worked by minority and women apprentices under the Award Criteria set out in Section 5 "Basis of Award (Award Criteria)," all hours worked in new apprenticeships by minority and women apprentices who are residents of the project community shall be multiplied by 2.0.

C. Definitions

- "Actual residents of the City of Chicago" shall mean persons domiciled within the City of Chicago. The domicile is an individual's one and only true, fixed, and permanent home and principal establishment.
- 2. "Residents of the project community" shall mean persons domiciled within the Ward in which the Site is located.
- "New Apprenticeship" shall mean an apprenticeship begun for a person who
 has not held an apprenticeship card within ninety (90) days prior to beginning
 the project.

4. Liquidated Damages

The Contractor is obligated to meet the total commitment made in each category, subject to liquidated damages as described below for non-compliance. The Contractor hereby consents and agrees that, in the event of failure to comply with each of the minimum commitments submitted in the Proposal on Lines 10, 12, 14, 16, 18 and 20 of the Canvassing Formula, covering Journeyworkers, Apprentices, and Laborers respectively, the following shall apply to determine a monetary sum to be withheld from the final payment to the Contractor. Since the Job Order Contract is a form of indefinite quantity contract, Liquidated Damages will be calculated based on the sum amounts of the Work Orders awarded to the Contractor.

For each 1% deficiency of minority Journeyworkers not utilized toward the goal (Line 10) four cents per hundred dollars of the Awarded Work Order Amount, calculated as follows:

Awarded Work Order Amount X .04 100

Each one percent (1%) deficiency of shortfall toward the goal (Line 16) for female Journeyworkers shall be computed in the same way.

For each 1 % deficiency of minority Apprentices not utilized toward the goal (Line 12) three cents per hundred dollars of the Awarded Contract Amount, calculated as follows:

Awarded Work Order Amount X.03

100

Each one percent (1%) deficiency of shortfall toward the goal (Line 18) for female Apprentices shall be computed in the same way.

Contract No. 1452

For each 1 % deficiency of minority Laborers not utilized toward the goal (Line 14) one cent per hundred dollars of the Awarded Contract Amount, calculated as follows:

Awarded Work Order Amount X .01

100

Each one percent (1%) deficiency of shortfall toward the goal (Line 20) for female Laborers shall be computed in the same way.

Liquidated damages, if any, will be calculated for the first pay requests reflecting fifty percent (50%) completion, seventy-five percent (75%) completion, and ninety percent (90%) completion, respectively, based upon the Contractor's pay request together with all attendant certified payrolls and other required documentation of minority and women employment. The accrued liquidated damages and interest will be added to the retention provided elsewhere in this contract. The amount of liquidated damages due to the Commission under this provision will bear compound interest at the rate of 5% per annum, compounded monthly from the date of the Notice to Proceed to the date of approval of a deductive change order for liquidated damages. Should the total amount of liquidated damages due under all provisions of this contract exceed the amount of the Commission's retainage, compound interest on the amount over and above the retainage will continue to accrue until the entire amount of liquidated damages and compound interest is paid to the Commission.

The Commission is aware that certain subcontract agreements under this contract may require subcontractors to contribute to payment of liquidated damages assessed under this provision. Should enforcement of subcontract liquidated damages provisions result in an aggregate total of subcontractor liquidated damages greater than the liquidated damages assessed hereunder against Contractor, then Contractor must pay the excess pro rata as a bonus to each subcontractor exceeding its subcontract commitments for minority or women employment, or both.

5. Reporting

In accordance with this commitment, the Contractor must submit both the Contractor's Payroll Record Form and the Contractor's Recapitulation of Minority and Female Worker Hours and Percentages Form on a monthly basis. All Subcontractors shall be listed on the Contractor's Recapitulation Form whether active or not. For the purpose of this report, the following group categories will be used:

The classification "White" includes person of Indo-European descent.

The classification "Black" or "African-American" includes persons having origins in any of the black racial groups of Africa.

The classification "Hispanic" includes persons whose origins are from Mexico, Puerto Rico, Cuba, Central or South America, the Caribbean Islands or other Spanish culture or origin, regardless of race.

BID FORM 3 - CALCULATION OF THE BID ADJUSTMENT FACTORS

CONFIDENTIAL

INSTRUCTIONS:

It is expected that the Bidder perform a detail analysis of the CTC®. Explain in detail the process you used to evaluate the pricing in the CTC® and how that evaluation process resulted in the bid adjustment factors. The Bidder must demonstrate to the Commission that adequate analysis was conducted to justify your bid adjustment factors. This must be in detail for each of the three adjustment factors below: Use additional sheets as required.

PART 1: CALCULATION OF THE NORMAL WORKING HOURS ADJUSTMENT FACTOR:

Unit price book for this contract was evaluated versus our current CPS & USPS JOC Contracts. Cost history for sample projects were evaluated versus this unit price book. All were evaluated to estimate the effect that LEED requirements would have on the adjustment factor.

PART 2: CALCULATION OF THE OTHER THAN NORMAL WORKING HOURS ADJUSTMENT FACTOR:

It was assumed that non-normal working hours would be a minimum on a campus park scenario, thus lowering the actual difference of the normal to non-normal factors in an effect to be competitive on an overall basis.

PART 3: CALCULATION OF THE NON PRE-PRICED ADJUSTMENT FACTOR:

It is assumed that non-pre priced work items would be incorporated with unit price book adjustment factors. The 7.1% adjustment covers bond & insurance costs and allows for a 5% OH&P on all non-pre priced work.
