AGREEMENT TO CONTRACT ASSIGNMENT

Effective upon the execution of this agreement to contract assignment ("Agreement") by Assignor, Assignee and Contractor (as each is defined below), the Public Building Commission of Chicago, an Illinois municipal corporation (the "PBC"), as Assignor, assigns its rights and delegates its duties and obligations under **Bid Package No. 05100 Structural Steel SCOPE** of PBC Contract No. PS1668 (the "Contract"), which Contract was made and entered into as of **January 13, 2010** by and between the PBC and **Carlo Steel Corp.** ("Contractor"), to Turner Construction Company, a New York Corporation ("Turner"), as Assignee. Notwithstanding the foregoing, Contractor's obligation to indemnify and defend Assignor under the terms of the Contract shall remain in full force and effect subsequent to such assignment.

Effective immediately upon the execution of this Agreement by all the parties hereto, Assignee accepts Assignor's rights under the Contract and assumes performance of the Contract, including all of Assignor's duties and obligations under it.

Effective immediately upon the execution of this Agreement by all the parties hereto, Contractor consents to the assignment and transfer of the Contract from Assignor to Assignee, and shall perform its duties and obligations and exercise its rights under the Contract, including its obligation to indemnify and defend Assignor, pursuant to the terms and conditions stated therein.

Fort, as Vice President and General Manager of Turner Construction **Notary Public** OFFICIAL SEAL CONTRACTOR DONNA MARIE SHIMKUS Carlo Steel Corp. NOTARY PUBLIC - STATE OF ILLINOIS MY COMMISSION EXPIRES:04/25/12 By: Name: RES. Title State of Illinois, County of Cook This Instrument was acknowledged before me this 17 day of 7eb 2010 by Maritza Marrero, as Notary 2009

Notary Public

This Agreement, made as of the THIRTEENTH day of JANUARY in the year TWO THOUSAND TEN by and between the Public Building Commission of Chicago, an Illinois municipal corporation, (hereinafter called the "PBC") and CARLO STEEL CORP., an Illinois Corporation with office located at 3100 East 87th Street, Chicago, Illinois 60617 (hereinafter called the Subcontractor).

Witnesseth, that the Subcontractor and the PBC agree as follows:

Description of Work

Article I. The Subcontractor shall perform and furnish all the work, labor, services, materials, plant, equipment, tools, scaffolds, appliances and other things necessary for STRUCTURAL STEEL (hereinafter called the Work) for and at the OGDEN REPLACEMENT ELEMENTARY SCHOOL (hereinafter called the Project), located on premises at 24 WEST WALTON STREET, CHICAGO, ILLINOIS 60610 (hereinafter called the Premises), as shown and described in and in strict accordance with the Plans, Specifications, General Conditions, Special Conditions and Addenda thereto prepared by NAGLE HARTRAY DANHER KAGAR McKAY PENNEY ARCHITECTS, LTD. (hereinafter called the Architect) and with the terms and provisions of the Agreement for Construction Management Services (hereinafter called the "General Contract") between PBC and Turner Construction Company (hereinafter called the "Construction Manager") dated OCTOBER 15, 2009 and in strict accordance with the additional Provisions, FIVE (5) pages annexed hereto and made a part hereof.

Contract Documents

Article II. The Plans, Specifications, General Conditions, Special Conditions, Addenda and General Contract hereinabove mentioned, are available for examination by the Subcontractor at all reasonable times at the office of the PBC; all of the aforesaid, including this Agreement, being hereinafter sometimes referred to as the Contract Documents. The Subcontractor represents and agrees that it has carefully examined and understands this Agreement and the other Contract Documents, has investigated the nature, locality and site of the Work and the conditions and difficulties under which it is to be performed and that it enters into this Agreement on the basis of its own examination, investigation and evaluation of all such matters and not in reliance upon any opinions or representations of the PBC, or of the Construction Manager, or of any of their respective officers, agents, servants, or employees.

With respect to the Work to be performed and furnished by the Subcontractor hereunder, the Subcontractor agrees to be bound to the PBC by each and all of the terms and provisions of the General Contract and the other Contract Documents, and to assume toward the Construction Manager all of the duties, obligations and responsibilities that Construction Manager by those Contract Documents assumes toward the PBC, and the Subcontractor agrees further that Construction Manager shall have the same rights and remedies as against the Subcontractor as the PBC under the terms and provisions of the General Contract and the other Contract Documents has against Construction Manager with the same force and effect as though every such duty, obligation, responsibility, right or remedy were set forth herein in full. The terms and provisions of this Agreement with respect to the Work to be performed and furnished by the Subcontractor hereunder are intended to be and shall be in addition to and not in substitution for any of the terms and provisions of the General Contract and the other Contract Documents.

This Subcontract Agreement, the provisions of the General Contract and the other Contract Documents are intended to supplement and complement each other and shall, where possible, be thus interpreted. If, however, any provision of this Subcontract Agreement irreconcilably conflicts with a provision of the General Contract and the other Contract Documents, the provision imposing the greater duty or obligation on the Subcontractor shall govern.

The parties recognize that problems and disputes between them may occur and that it is preferable for them to reach an amicable resolution of same without the need to resort to formal dispute resolution procedures. In that regard, they each pledge to participate in good faith in voluntary and non-binding Alternate Dispute Resolution (ADR) procedures. However, in the event that such disputes are not resolved by mediation or another ADR procedure as the PBC and the Subcontractor

INITIALED FOR:
SUBCTR TURNER

may agree then such disputes shall be resolved at PBC's sole option either in the manner and forum pursuant to which disputes between the PBC and Construction Manager are to be resolved under the terms of the General Contract or according to law. Furthermore, the Subcontractor agrees that the PBC shall have the exclusive right to join the Subcontractor as a party in any dispute resolution procedure (including without limitation ADR procedures, binding arbitration or other judicial or non-judicial proceeding) between the PBC and Construction Manager, together with such other subcontractors or parties as may be appropriate, where in the judgment of the PBC the issues in dispute are related to the work or performance of the Subcontractor. Furthermore, the Subcontractor expressly agrees to waive its right to trial by jury in case the PBC elects to resolve the dispute in litigation.

Time of Completion

Article III. The Subcontractor shall commence the Work when notified to do so by the PBC and shall diligently and continuously prosecute and complete the Work and coordinate the Work with the other work being performed on the Project, in accordance with those project schedules as may be issued from time to time during the performance of the Work and any other scheduling requirements listed in this Agreement, so as not to delay, impede, obstruct, hinder or interfere with the commencement, progress or completion of the whole or any part of the Work or other work on the Project.

The Subcontractor shall participate and cooperate in the development of schedules and other efforts to achieve timely completion of the Work providing information for the scheduling of the times and sequence of operations required for its Work to meet PBC's overall schedule requirements, shall continuously monitor the project schedule so as to be fully familiar with the timing, phasing and sequence of operations of the Work and of other work on the Project, and shall execute the Work in accordance with the requirements of the project schedule including any revisions thereto.

Should the progress of the Work or of the Project be delayed, disrupted, hindered, obstructed, or interfered with by any fault or neglect or act or failure to act of the Subcontractor or any of its officers, agents, servants, employees, subcontractors or suppliers so as to cause any additional cost, expense, liability or damage to Construction Manager including legal fees and disbursements incurred by Construction Manager (whether incurred in defending claims arising from such delay or in seeking reimbursement and indemnity from the Subcontractor and its surety hereunder or otherwise) or to the PBC or any damages or additional costs or expenses for which Construction Manager or the PBC may or shall become liable, the Subcontractor and its surety shall and does hereby agree to compensate Construction Manager and the PBC for and indemnify them against all such costs, expenses, damages and liability.

PBC, if it deems necessary, may direct the Subcontractor to work overtime and, if so directed, the Subcontractor shall work said overtime and, provided that the Subcontractor is not in default under any of the terms or provisions of this Agreement or of any of the other Contract Documents, PBC will pay the Subcontractor for such actual additional wages paid, if any, at rates which have been approved by PBC plus taxes imposed by law on such additional wages, plus workers' compensation insurance, liability insurance and levies on such additional wages if required to be paid by the Subcontractor to comply with Subcontractor's obligations under this Agreement.

If, however, the progress of the Work or of the Project be delayed by any fault or neglect or act or failure to act of the Subcontractor or any of its officers, agents, servants, employees, subcontractors or suppliers, then the Subcontractor shall, in addition to all of the other obligations imposed by this Agreement upon the Subcontractor in such case, and at its own cost and expense, work such overtime as may be necessary to make up for all time lost in the completion of the Work and of the Project due to such delay. Should the Subcontractor fail to make up for the time lost by reason of such delay, PBC shall have the right to cause other Subcontractors to work overtime and to take whatever other action it deems necessary to avoid delay in the completion of the Work and of the Project, and the cost and expense of such overtime and/or such other action shall be borne by the Subcontractor.

Price

Article IV. The sum to be paid by the PBC, out of funds received from the owner, to the Subcontractor for the satisfactory performance and completion of the Work and of all of the duties, obligations and responsibilities of the Subcontractor under this Agreement and the other Contract Documents shall be TWO MILLION THREE HUNDRED SEVENTY-NINE THOUSAND THREE HUNDRED NINETY-NINE AND 00/100 DOLLARS (\$2,379,399.00) (hereinafter called the Price) subject to additions and deductions as herein provided.

The Price includes all Federal, State, County, Municipal and other taxes imposed by law and based upon labor, services, materials, equipment or other items acquired, performed, furnished or used for and in connection with the Work, including but not limited to sales, use and personal property taxes payable by or levied or assessed against the PBC, Construction Manager or the Subcontractor. Where the law requires any such taxes to be stated and charged separately, the total price of all items included in the Work plus the amount of such taxes shall not exceed the Price.

Monthly Estimate

On or before the last day of each month the Subcontractor shall submit to Construction Manager, in the form required by the PBC, a written requisition for payment showing the proportionate value of the Work installed to that date, from which shall be deducted: a reserve of ten per cent (10%); all previous payments; all amounts and claims against Subcontractor, by the PBC or any third party, for which Subcontractor is responsible hereunder; and all charges for services, materials, equipment and other items furnished by the PBC to or chargeable to the Subcontractor; and the balance of the amount of such requisition, as approved by Construction Manager, the PBC and the Architect, shall be due and paid to the Subcontractor on or about the fifteenth (15th) day of the succeeding month or in accordance with the Contract Documents.

In the event of an assignment of the Agreement by the PBC, the obligations of the assignee to make a payment under this Agreement, whether a progress or final payment, or for extras or change orders or delays to the Work, is subject to the express condition precedent of payment therefor by the PBC to the assignee. If the assignee has provided payment or performance bonds or a combination payment and performance bond, the obligation of assignee and its Surety under any of those bonds to make any payment (whether a progress payment or final payment) to a claimant on that bond is similarly subject to the express condition precedent of payment therefore by the PBC. Final payment to the Subcontractor shall be made only with funds received by assignee from the PBC, the Construction Lender or the Owner's Agent as final payment for Work under the General Contract. Final payment to assignee by the PBC shall be an express condition precedent that must occur before assignee shall be obligated to make final payment to the Subcontractor and shall be in addition to any other conditions precedent contained in this Agreement.

The Subcontractor shall submit with its first requisition for payment a detailed schedule showing the breakdown of the Price into its various parts for use only as a basis of checking the Subcontractor's monthly requisitions.

PBC reserves the right to advance the date of any payment (including the final payment) under this Agreement if, in its sole judgment, it becomes desirable to do so.

The Subcontractor agrees that, if and when requested to do so by the PBC, it shall furnish such information, evidence and substantiation as the PBC may require with respect to the nature and extent of all obligations incurred by the Subcontractor for or in connection with the Work, all payments made by the Subcontractor thereon, and the amounts remaining unpaid, to whom and the reasons therefor.

Final Payment

Final payment by the PBC to the Subcontractor shall not become due and payable until the following other express conditions precedent have been met: (1) the completion and acceptance of the Work by Construction Manager, the PBC and the Architect; (2) provision by the Subcontractor of evidence satisfactory to the PBC that there are no claims, obligations or liens outstanding or unsatisfied for labor, services, materials, equipment, taxes or other items performed, furnished, or incurred for or in connection with the Work; (3) execution and delivery by the Subcontractor, in a form

8

INITIAL ED FOR:
SUBCTR TURNER

satisfactory to the PBC of a general release running to and in favor of Construction Manager and the PBC; and (4) complete and full satisfaction of all claims, demands and disputes, and all obligations and responsibilities of Subcontractor, arising out of or related to the Subcontract, including those as between the PBC and Subcontractor as well as those between Subcontractor and any third party. Should there be any such claim, obligation or lien or unsatisfied obligation or responsibility whether before or after final payment is made, the Subcontractor shall pay, refund or deliver to the PBC (1) all monies that Construction Manager and/or the PBC shall pay in satisfying, discharging or defending against any such claim, obligation or lien or any action brought or judgment recovered thereon and all costs and expenses, including legal fees and disbursements, incurred in connection therewith; and (2) such amounts as Construction Manager or the PBC shall, in their sole discretion, determine to be an amount sufficient to protect Construction Manager and the PBC therefrom (in lieu of payment of such amounts, Subcontractor may, at PBC's and Construction Manager's sole discretion, deliver a bond satisfactory to Construction Manager and PBC). Such refund and payment shall be made within ten (10) days of request by the PBC to Subcontractor for same. The final payment shall be due within forty (40) days after all of these express conditions precedent have been met.

Payments Withheld

If any claim or lien is made or filed with or against Construction Manager, the PBC, the Project, the Premises or the Project funds by any person claiming that the Subcontractor or any subcontractor or other person under subcontract to Subcontractor, or any person or entity employed or engaged by or through Subcontractor at any tier, has failed to make payment for any labor, services, materials, equipment, taxes or other items or obligations furnished or incurred for or in connection with the Work, or if any such claim or lien is filed or presented, or if Construction Manager or PBC, in good faith, believes that such a claim or lien may be filed or brought, or if at any time there shall be evidence of such nonpayment or of any claim or lien for which, if established, Construction Manager or the PBC might become liable and which is chargeable to the Subcontractor, or if the Subcontractor or any subcontractor or other person under subcontract to Subcontractor, or any person or entity employed or engaged by or through Subcontractor at any tier causes damage to the Work or to any other work on the Project, or if the Subcontractor fails to perform or is otherwise in default under any of the terms or provisions of this Agreement, PBC shall have the right (A) to retain from any payment then due or thereafter to become due an amount which it deems sufficient to (1) satisfy, discharge and/or defend against any such claim or lien or any action which may be brought or judgment which may be recovered thereon, (2) make good any such nonpayment, damage, failure or default, and (3) compensate Construction Manager and the PBC for and indemnify and hold them harmless against any and all losses, liability, damages, costs and expenses, including legal fees and disbursements, which may be sustained or incurred by either or both of them in connection therewith; and (B) to demand that Subcontractor provide, within ten (10) days of PBC's request therefore, proof to the satisfaction of Construction Manager and PBC that such non-payment, claim or lien has been fully satisfied, dismissed and discharged. Upon the failure of Subcontractor to fulfill the requirements of a demand issued by PBC pursuant to subsection (B) above, PBC may, in such manner as PBC may in its sole discretion determine, secure the satisfaction, dismissal and discharge of such claim, by payment or otherwise, and Subcontractor shall within ten (10) days of demand therefore, be liable for and pay to PBC all amounts (including legal fees and disbursements) incurred or suffered by Construction Manager or PBC arising out of or related thereto. PBC shall, in addition, have the right to apply and charge against the Subcontractor so much of the amount retained as may be required for the foregoing purposes. Subcontractor further agrees to indemnify, hold harmless and defend Construction Manager and PBC, upon demand, for any and all such claims, liens, and the costs, expenses (including legal fees and disbursements), damages and liabilities arising out of or related thereto. Subcontractor acknowledges (1) that discharge of such liens or claims by bond imposes liability upon a surety, Construction Manager and PBC, and (2) that Construction Manager is not required to discharge such lien or claims by bond when exercising its rights hereunder.

Payments etc., non Acceptance

No payment (final or otherwise) made under or in connection with this Agreement shall be conclusive evidence of the performance of the Work or of this Agreement, in whole or in part, and no such payment shall be construed to be an acceptance of defective, faulty or improper work or materials nor shall it release the Subcontractor from any of its obligations under this Agreement; nor shall entrance and use by the PBC constitute acceptance of the Work or any part thereof. The failure

INITIALED FOR:
SUBCTR TURNER

Extension of Time

of Subcontractor to fully perform and satisfy any or all obligations set forth in this Article IV shall constitute a default, entitling the PBC to take action as described in Article XI.

Article V. Should the Subcontractor be delayed, obstructed, hindered or interfered with in the commencement, prosecution or completion of the Work by any cause including but not limited to any act, omission, neglect, negligence or default of Construction Manager or of anyone employed by Construction Manager or by any other contractor or subcontractor on the Project, or by the Architect, the PBC or their contractors, subcontractors, agents or consultants, or by damage caused by fire or other casualty or by the combined action of workers or by governmental directive or order in no wise chargeable to the Subcontractor, or by any extraordinary conditions arising out of war or government regulations, or by any other cause beyond the control of and not due to any fault, neglect, act or omission of the Subcontractor, its officers, agents, employees, subcontractors or suppliers, then except where the General Contract has specific requirements at variance with the foregoing, in which case the requirements of the General Contract shall govern, the Subcontractor shall be entitled to an extension of time for a period equivalent to the time lost by reason of any and all of the aforesaid causes; provided, however, that the Subcontractor shall not be entitled to any such extension of time unless the Subcontractor (1) notifies PBC in writing of the cause or causes of such delay, obstruction, hindrance or interference within forty eight (48) hours of the commencement thereof and (2) demonstrates that it could not have anticipated or avoided such delay, obstruction, hindrance or interference and has used all available means to minimize the consequences thereof. Subcontractor acknowledges that provision of such notice is an essential condition precedent to Subcontractor's rights in connection with any such delays, obstructive hindrances or interferences to PBC's ability to fully identify, and expeditiously, address and avoid such cause or causes, and, accordingly, Subcontractor expressly waives all rights with respect to any such cause or causes for which notice hereunder was not provided. Notwithstanding the foregoing, if the General Contract is at variance with granting such time extension, then the provisions of the General Contract shall control.

The Subcontractor agrees that it shall not be entitled to nor claim any cost reimbursement, compensation or damages for any delay, obstruction, hindrance or interference to the Work except to the extent that PBC has actually recovered corresponding cost reimbursement, compensation or damages from the Owner under the Contract Documents for such delay, obstruction, hindrance or interference, and then only to the extent of the amount, if any, which PBC on behalf of the Subcontractor, actually received from the Owner on account of such delay, obstruction, hindrance or interference. Notwithstanding any term or provision herein to the contrary, Subcontractor expressly waives and releases all claims or rights to recover lost profit (except for profit on work actually performed), recovery of overhead (including home office overhead), and any other indirect damages, costs or expenses in any way arising out of or related to the Agreement, including the breach thereof by PBC, delays, charges, acceleration, loss of efficiency or productivity disruptions and interferences with the performance of the work.

It shall be an express condition precedent to any obligation on the part of PBC to make payment of any such cost, reimbursement, compensation or damages to the Subcontractor hereunder that PBC shall first be determined to be entitled to such compensation on behalf of the Subcontractor and then receive such payment from Owner, and Subcontractor expressly acknowledges that PBC is not obligated or required to pursue Subcontractor claims as against Owner if the PBC, in its sole discretion, after review of Subcontractor's claim, has deemed the claim to lack merit in whole or in part.

The Subcontractor agrees that it shall contribute a fair and proportionate share of the costs of advancing the claims of the Subcontractor for delay, including but not limited to legal and other professional fees.

Freight Charges and Shipments

Article VI. The Subcontractor in making or ordering shipments shall not consign or have consigned materials, equipment or any other items in the name of the PBC. PBC is under no obligation to make payment for charges on shipments made by or to the Subcontractor but may, at its option, pay such charges, in which case the Subcontractor shall reimburse the PBC for the amount of such payments plus a service charge of twenty-five percent (25%) of the amount so paid.

Page 5 of 18

Dimensions

Article VII. Notwithstanding the dimensions on the Plans, Specifications and other Contract Documents it shall be the obligation and responsibility of the Subcontractor to take such measurements as will ensure the proper matching and fitting of the Work covered by this Agreement with contiguous work.

Shop Drawings

The Subcontractor shall prepare and submit to the PBC such shop drawings as may be necessary to describe completely the details and construction of the Work. Approval of such shop drawings by the Construction Manager, the PBC and/or the Architect shall not relieve the Subcontractor of its obligation to perform the Work in strict accordance with the Plans, Specifications, the Additional Provisions hereof and the other Contract Documents, nor of its responsibility for the proper matching and fitting of the Work with contiguous work and the coordination of the Work with other work being performed on the site, which obligation and responsibility shall continue until completion of the Work.

The Subcontractor's submission of a shop drawing to the PBC or Construction Manager shall constitute the Subcontractor's representation, upon which the PBC and Construction Manager may rely, that the Subcontractor has reviewed the submission for accuracy and compliance with all Contract Documents and that wherever engineering is required to be performed, same has been performed by a qualified and licensed engineer. Furthermore, the review of the Shop Drawing by the PBC and Construction Manager shall not constitute an undertaking by the PBC or Construction Manager to identify deficiencies in the submission, that being an undertaking within the sole responsibility of the Subcontractor.

Contiguous Work

Should the proper and accurate performance of the Work hereunder depend upon the proper and accurate performance of other work not covered by this Agreement, the Subcontractor shall carefully examine such other work, determine whether it is in fit, ready and suitable condition for the proper and accurate performance of the Work hereunder, use all means necessary to discover any defects in such other work, and before proceeding with the Work hereunder, report promptly any such improper conditions and defects to the PBC and Construction Manager in writing and allow the PBC a reasonable time to have such improper conditions and defects remedied.

Interpretation of Plans and Specifications

Article VIII. The Work hereunder is to be performed and furnished under the direction and to the satisfaction of both the Architect, the PBC and Construction Manager. The decision of the Architect as to the true construction, meaning and intent of the Plans and Specifications shall be final and binding upon the parties hereto. PBC will furnish to the Subcontractor such additional information and Plans as may be prepared by the Architect to further describe the Work to be performed and furnished by the Subcontractor and the Subcontractor shall conform to and abide by the same.

The Subcontractor shall not make any changes, additions and/or omissions in the Work except upon written order of PBC as provided in Article IX hereof.

Change Orders, Additions and Deductions

Article IX. PBC reserves the right, from time to time, whether the Work or any part thereof shall or shall not have been completed, to make changes, additions and/or omissions in the Work as it may deem necessary, upon written order to the Subcontractor. The value of the work to be changed, added or omitted shall be stated in said written order and shall be added to or deducted from the Price.

The value of the work to be changed, added or omitted shall be determined by the lump sum or unit prices, if any, stipulated herein for such work. If no such prices are stipulated, such value shall be determined by whichever of the following methods or combination thereof PBC may elect:

(a) By adding or deducting a lump sum or an amount determined by a unit price agreed upon between the parties hereto.

**See Formula for Changes

(b) By adding (1) the actual net cost to the Subcontractor of labor in accordance with the established rates, including required union benefits, premiums the Subcontractor is required to pay for workmen's compensation and liability insurance, and payroll taxes on such labor, (2) the actual cost to the Subcontractor of materials and equipment and such other direct costs as may be approved by PBC less all savings, discounts, rebates and credits, (3) an allowance of ** for overhead on items (1) and (2) above, and (4) an allowance of ** for profit on items (1), (2) and (3) above.

Should the parties hereto be unable to agree as to the value of the work to be changed, added or omitted, the Subcontractor shall proceed with the work promptly under the written order of PBC from which order the stated value of the work shall be omitted, and the determination of the value of the work shall be referred to the Architect whose decision shall be final and binding upon the parties hereto.

In the case of omitted work PBC shall have the right to withhold from payments due or to become due to the Subcontractor an amount which, in PBC's opinion, is equal to the value of such work until such time as the value thereof is determined by agreement or by the Architect as hereinabove provided.

All changes, additions or omissions in the Work ordered in writing by PBC shall be deemed to be a part of the Work hereunder and shall be performed and furnished in strict accordance with all of the terms and provisions of this Agreement and the other Contract Documents. Subcontractor accepts the responsibility to keep its surety informed of all such modifications to its contract. The obligations of Subcontractor and Subcontractor's Surety shall not be reduced, waived or adversely affected by the issuance of such change orders, additions or deductions even if Subcontractor fails to inform Surety of same and PBC shall not be required to obtain consent of the Surety to such modifications.

Inspection and Defective Work Article X. The Subcontractor shall at all times provide sufficient, safe and proper facilities for the inspection of the Work by the PBC, Construction Manager, the Architect, and their authorized representatives in the field, at shops or at any other place where materials or equipment for the Work are in the course of preparation, manufacture, treatment or storage. The Subcontractor shall, within twenty-four (24) hours after receiving written notice from PBC to that effect, proceed to take down all portions of the Work and remove from the premises all materials whether worked or unworked, which the Architect, the PBC or Construction Manager shall condemn as unsound, defective or improper or as in any way failing to conform to this Agreement or the Plans, Specifications or other Contract Documents, and the Subcontractor, at its own cost and expense, shall replace the same with proper and satisfactory work and materials and make good all work damaged or destroyed by or as a result of such unsound, defective, improper or nonconforming work or materials or by the taking down, removal or replacement thereof.

Failure to Prosecute, etc.

Article XI. Should the Subcontractor at any time, whether before or after final payment, refuse or neglect to supply a sufficiency of skilled workers or materials of the proper quality and quantity, or fail in any respect to prosecute the Work with promptness and diligence, or cause by any act or omission the stoppage, impede, obstruct, hinder or delay of or interference with or damage to the work of PBC or of any other contractors or subcontractors on the Project, or fail in the performance of any of the terms and provisions of this Agreement or of the other Contract Documents, or should the Architect determine that the Work or any portion thereof is not being performed in accordance with the Contract Documents, or should there be filed by or against the Subcontractor a petition in bankruptcy or for an arrangement or reorganization, or should the Subcontractor become insolvent or be adjudicated a bankrupt or go into liquidation or dissolution, either voluntarily or involuntarily or under a court order, or make a general assignment for the benefit of creditors, or otherwise acknowledge insolvency, then in any of such events, each of which shall constitute a default hereunder on the Subcontractor's part, PBC shall have the right, in addition to any other rights and remedies provided by this Agreement and the other Contract Documents or by law, after three (3) days written notice to the Subcontractor mailed or delivered to the last known address of the latter, (a) to perform and furnish through itself or through others any such labor or materials for the Work and to deduct the cost thereof from any monies due or to become due to the Subcontractor under this

Agreement, and/or (b) to terminate the employment of the Subcontractor for all or any portion of the Work, enter upon the premises and take possession, for the purpose of completing the Work, of all materials, equipment, scaffolds, tools, appliances and other items thereon, all of which the Subcontractor hereby transfers, assigns and sets over to PBC for such purpose, and to employ any person or persons to complete the Work and provide all the labor, services, materials, equipment and other items required therefor. In case of such termination of the employment of the Subcontractor, the Subcontractor shall not be entitled to receive any further payment under this Agreement until the Work shall be wholly completed to the satisfaction of the PBC, Construction Manager and the Architect and shall have been accepted by them, at which time, if the unpaid balance of the amount to be paid under this Agreement shall exceed the cost and expense incurred by PBC in completing the Work, such excess shall be paid by PBC to the Subcontractor; but if such cost and expense shall exceed such unpaid balance, then the Subcontractor and its surety, if any, shall pay the difference to PBC. Such cost and expense shall include, not only the cost of completing the Work to the satisfaction of the PBC, Construction Manager and the Architect and of performing and furnishing all labor, services. materials, equipment, and other items required therefore, but also all losses, damages, costs and expenses, (including legal fees and disbursements incurred in connection with reprocurement, in defending claims arising from such default and in seeking recovery of all such cost and expense from the Subcontractor and/or its surety), and disbursements sustained, incurred or suffered by reason of or resulting from the Subcontractor's default. Should the PBC take action by effectuating the provisions of this paragraph, and should it subsequently be determined that a termination effectuated by the terms of this Article was improper, such termination shall be treated as a termination for convenience pursuant to Article XX below.

It is recognized that if the Subcontractor institutes or has instituted against it a case under Title 11 of the United States Code (Bankruptcy Code), such event could impair or frustrate the Subcontractor's performance of this Agreement. Accordingly, it is agreed that upon the occurrence of any such event, PBC shall be entitled to request of Subcontractor or its trustee or other successor adequate assurances of future performance. Failure to comply with such request within ten (10) days of delivery of the request shall entitle PBC, in addition to any other rights and remedies provided by this Agreement or by law, to terminate this Agreement. Pending receipt of adequate assurances of performance and actual performance in accordance herewith, PBC shall be entitled to perform and furnish through itself or through others any such labor, materials or equipment for the Work as may be necessary to maintain the progress of the Work and to deduct the cost thereof from any monies due or to become due to the Subcontractor under this Agreement. In the event of such bankruptcy proceedings, this Agreement shall terminate if the Subcontractor rejects this Agreement or if there has been a default and the Subcontractor is unable to give adequate assurance that it will perform as provided in this Agreement or otherwise is unable to comply with the requirements for assuming this Agreement under the applicable provisions of the Bankruptcy Code.

Subcontractor, in addition to any other rights available to the PBC hereunder, agrees to indemnify, hold harmless and defend the PBC from and against any and all claims, demands, suits, damages, judgments, liabilities, costs and expenses (including legal fees and disbursements) arising out of or related to Subcontractor's breach of any term of the Agreement.

Loss or Damage to Work **Article XII.** PBC shall not be responsible for any loss or damage to the Work to be performed and furnished under this Agreement, however caused, until after final acceptance thereof by the PBC, Construction Manager and the Architect, nor shall the PBC be responsible for loss of or damage to materials, tools, equipment, appliances or other personal property owned, rented or used by the Subcontractor or anyone employed by it in the performance of the Work, however caused.

Builder's Risk Insurance

PBC or Owner shall effect and maintain All-Risk Builder's Risk insurance in accordance with the Contract Documents upon all Work, materials and equipment incorporated in the Project and all materials and equipment on or about the Premises intended for permanent use or incorporation in the Project or incident to the construction thereof, the capital value of which is included in the cost of the Work, but not including any contractors' machinery, tools, equipment or other personal property owned, rented or used by the Subcontractor or anyone employed by it in the performance of the Work.

SUBCTR TURNER

A loss insured under the PBC or the Owner's All-Risk Builder's Risk insurance shall be adjusted by the PBC or the Owner as fiduciary and made payable to PBC or the Owner as fiduciary for the Insureds, as their interests may appear. PBC or the Owner shall pay Subcontractors their just shares of insurance proceeds received by PBC or the Owner, and by appropriate agreements, written where legally required for validity, and shall require Subcontractors to make payments to their subcontractors in a similar manner.

Cleaning Up

Article XIII. The Subcontractor shall, at its own cost and expense, (1) keep the Premises free at all times from all waste materials, packaging materials and other rubbish accumulated in connection with the execution of its Work by collecting and depositing said materials and rubbish in locations or containers as designated by PBC from which it shall be removed by the PBC from the Premises without charge, (2) clean and remove from its own Work and from all contiguous work of others any soiling, staining, mortar, plaster, concrete or dirt caused by the execution of its Work and make good all defects resulting therefrom (3) at the completion of its Work in each area, perform such cleaning as may be required to leave the area "broom clean", and (4) at the entire completion of its Work, remove all of its tools, equipment, scaffolds, shanties and surplus materials. Should the Subcontractor fail to perform any of the foregoing to the PBC's satisfaction, the PBC shall have the right to perform and complete such work itself or through others and charge the cost thereof to the Subcontractor.

Ethics and Compliance

Article XIV. The Subcontractor shall obtain and pay for all necessary permits and licenses pertaining to the Work and shall comply with all Federal, State, Municipal and local laws, ordinances, codes, rules, regulations, standards, orders, notices and requirements, including but not limited to those relating to safety, discrimination in employment, fair employment practices, immigration laws or equal employment opportunity, and whether or not provided for by the Plans, Specifications, General Conditions, or other Contract Documents, without additional charge or expense to the PBC and shall also be responsible for and correct, at its own cost and expense, any violations thereof resulting from or in connection with the performance of its Work. Each requisition for payment shall constitute a representation and warranty that Subcontractor is in compliance with applicable law.

The Subcontractor shall at any time upon demand furnish such proof as PBC may require showing such compliance and the correction of such violations. The Subcontractor agrees to save harmless and indemnify PBC from and against any and all loss, injury, claims, actions, proceedings, liability, damages, fines, penalties, costs and expenses, including legal fees and disbursements, caused or occasioned directly or indirectly by the Subcontractor's failure to comply with any of said laws, ordinances, rules, regulations, standards, orders, notices or requirements or to correct such violations therefore resulting from or in connection with the performance of Work.

The Immigration and Nationality Act as amended by the Immigration Reform and Control Act of 1986 (IRCA) makes it illegal for employers to knowingly hire persons who are not authorized to work in the United States. For all employees, employers are required to complete an Employment Eligibility Verification Form I-9 which requires the prospective employee to produce documentation that establishes identity and employment eligibility. For more information visit www.uscis.gov, or speak to your attorney. Each subcontractor is solely responsible for properly completing Employment Eligibility Verifications for their own employees.

Subcontractor acknowledges represents and warrants that Subcontractor is aware of and understands IRCA, that Subcontractor is in compliance with IRCA, and that Subcontractor is not knowingly employing workers who are not authorized to work in the United States. Subcontractor agrees that Subcontractor will not employ any worker under this subcontract for whom Subcontractor has not completed and maintained I-9 verification. Subcontractor agrees that if Subcontractor acquires knowledge (constructive or otherwise, including receipt of a "no match" letter from Social Security Administration) indicating that one of Subcontractor's workers on this project may not be authorized to work in the United States, despite Subcontractor having conducted a facially valid I-9 verification, that Subcontractor will exercise due diligence as required by law to confirm authorization status and take appropriate action which may include termination of employment. Subcontractor represents and warrants that they will not subcontract to or utilize labor sources that it knows or has reason to know violate IRCA.

INITIALED FOR:
SUBCTR TURNER

PBC and Construction Manager have a longstanding reputation for honesty and integrity in its business dealings and for its corporate policies promoting lawful and ethical behavior. PBC and Construction Manager are committed to upholding that reputation and have adopted a Standard of Business Conduct Policy Statement which governs the actions of all of its employees. Pursuant to that Policy Statement, the PBC and Construction Manager employees are prohibited from accepting bribes or kickbacks in any form and, further, are prohibited from accepting goods or services provided by a subcontractor, supplier or vendor for the personal benefit of the employee, his or her relatives, or any entity in which the employee or his or her relatives has a personal interest. This prohibition includes, but is not limited to; work performed on an employee's residence and applies regardless of whether the beneficiary of the goods or services pays for them. Therefore, if the Subcontractor offers or provides a bribe or kickback to any employee, or offers or provides goods or services to any employee, his or her relatives, or any entity in which the employee or his or her relatives has a financial interest, the Subcontractor will be considered to be in material breach of this Subcontract. Subcontractor undertakes the commitment to advise the PBC and Construction Manager of any action by any entity or person associated with the project that Subcontractor believes violates any applicable law, rule or regulation. Subcontractor's violation of any of the foregoing shall be considered as Subcontractor's failure to perform its obligations under the terms and conditions of this Agreement. Such failure shall be considered adequate and justifiable grounds for the PBC to effectuate its rights and remedies under the provisions of Article XI of this Agreement.

The provisions of this Article must be incorporated into any subcontract Subcontractor enters into in connection with the performance of the Work.

Labor to be Employed

Article XV. The Subcontractor shall not employ workers, means, materials or equipment which may cause strikes, work stoppages or any disturbances by workers employed by the Subcontractor, the PBC, Construction Manager or other contractors or subcontractors on or in connection with the Work or the Project or the location thereof. The Subcontractor agrees that all disputes as to jurisdiction of trades shall be adjusted in accordance with any plan for the settlement of jurisdictional disputes which may be in effect either nationally or in the locality in which the Work is being done and that it shall be bound and abide by all such adjustments and settlements of jurisdictional disputes, provided that the provisions of this Article shall not be in violation of or in conflict with any provisions of law applicable to the settlement of such disputes. Subcontractor fail to carry out or comply with any of the foregoing provisions, the PBC shall have the right, in addition to any other rights and remedies provided by this Agreement or the other Contract Documents or by law, after three (3) days written notice mailed or delivered to the last known address of the Subcontractor, to terminate this Agreement or any part thereof or the employment of the Subcontractor for all or any portion of the Work, and, for the purpose of completing the Work, to enter upon the Premises and take possession, in the same manner, to the same extent and upon the same terms and conditions as set forth in Article XI of this Agreement.

Taxes and Contributions

Article XVI. The Subcontractor for the Price herein provided, hereby accepts and assumes exclusive liability for and shall indemnify, protect and save harmless the PBC, Construction Manager and the Owner from and against the payment of:

- 1. All contributions, taxes or premiums (including interest and penalties thereon) which may be payable under the Unemployment Insurance Law of any State, Federal Social Security Act, Federal, State, County and/or Municipal Tax Withholding Laws, or any other law, measured upon the payroll of or required to be withheld from employees, by whomsoever employed, engaged in the Work to be performed and furnished under this Agreement.
- 2. All sales, use, personal property and other taxes (including interest and penalties thereon) required by any Federal, State, County, Municipal or other law to be paid or collected by the Subcontractor or any of its subcontractors or vendors or any other person or persons acting for, through or under it or any of them, by reason of the performance of the Work or the acquisition, ownership, furnishing or use of any materials, equipment, supplies, labor, services or other items for or in connection with the Work.

3. All pension, welfare, vacation, annuity and other union benefit contributions payable under or in connection with labor agreements with respect to all persons, by whomsoever employed, engaged in the Work to be performed and furnished under this Agreement.

In furtherance of, and in addition to the agreements, duties obligations and responsibilities of the Subcontractor with respect to the payment of sales, use, personal property and other taxes set forth in Articles IV and XVI of this Agreement, the Subcontractor agrees to reimburse and otherwise indemnify the PBC. Construction Manager and the Owner for any expenses, including legal fees and litigation arising from, or related to the Subcontractor's failure to pay any sales, use, personal property or other taxes based upon labor, services, materials, equipment or other items acquired, performed, furnished or used for or in connection with the Work.

Patents

Article XVII. The Subcontractor hereby agrees to indemnify, protect and save harmless the PBC, Construction Manager and the Owner from and against any and all liability, loss or damage and to reimburse PBC and the Owner for any expenses, including legal fees and disbursements, to which the PBC, Construction Manager and the Owner may be put because of claims or litigation on account of infringement or alleged infringement of any letters patent or patent rights by reason of the Work or materials, equipment or other items used by the Subcontractor in its performance.

Mechanics' Liens or Claims

Article XVIII. To the fullest extent permitted by law, Subcontractor for itself and for its subcontractors, laborers and materialmen and suppliers and all others directly or indirectly acting for, through or under it or any of them covenants and agrees that no liens or claims, whether a mechanics' lien or an attested account or otherwise, will be filed or maintained against the Project or Premises or any part thereof or any interests therein or any improvements thereon, or against any monies due or to become due from the Owner to PBC or from the PBC to the Subcontractor, for or on account of any work, labor, services, materials, supplies, equipment, or other items performed or furnished for or in connection with the Work, and the Subcontractor for itself and its Subcontractors, laborers, and materialmen and suppliers and all others above mentioned does hereby expressly waive, release and relinquish all rights to file or maintain such liens and claims and agrees further that this waiver of the right to file or maintain such liens and claims shall be an independent covenant and shall apply as well to work, labor and services performed and materials, supplies, equipment and other items furnished under any change order or supplemental agreement for extra or additional work in connection with the Project as to the Original Work covered by this Agreement.

If any subcontractor, laborer, materialman or supplier of the Subcontractor or any other person directly or indirectly acting for, through or under it or any of them files or maintains a lien or claim, whether a mechanics' lien or an attested account or otherwise, a mechanic's lien or claim against the Project or Premises or any part thereof or any interests therein or any improvements thereon or against any monies due or to become due from the Owner to PBC or from PBC to the Subcontractor, for or on account of any work, labor, services, materials, supplies, equipment or other items performed or furnished for or in connection with the Work or under any change order or supplemental agreement for extra or additional work in connection with the Project, the Subcontractor agrees to cause such liens and claims to be satisfied, removed or discharged at its own expense by bond, payment or otherwise within ten (10) days from the date of the filing thereof, and upon its failure to do so PBC shall have the right, in addition to all other rights and remedies provided under this Agreement and the other Contract Documents or by law, to cause such liens or claims to be satisfied. removed or discharged by whatever means PBC chooses, at the entire cost and expense of the Subcontractor (such cost and expense to include legal fees and disbursements). The Subcontractor agrees to indemnify, protect and save harmless the PBC, Construction Manager and the Owner from and against any and all such liens and claims and actions brought or judgments rendered thereon. and from and against any and all loss, damages, liability, costs and expenses, including legal fees and disbursements, which the PBC, Construction Manager and/or the Owner may sustain or incur in connection therewith.

Assignment and Subletting

Article XIX. To the fullest extent permitted by law, Subcontractor agrees that it shall not assign, sell, transfer, delegate or encumber any rights, duties or obligations arising under this Agreement including, but not limited to, any right to receive payments hereunder, without the prior written consent of PBC in its sole discretion and the giving of any such consent to a particular assignment shall not dispense with the necessity of such consent to any further or other assignments. In the event Subcontractor assigns, sells, encumbers or otherwise transfers its right to any monies due or to become due under this Agreement as security for any loan, financing or other indebtedness (hereafter "Assignment"), notification to PBC of such Assignment must be sent by certified mail, return receipt requested, to the Purchasing Manager in charge of the business unit responsible for the construction of the Project and the Assignment shall not be effective as against PBC until PBC provides its written consent to such Assignment. Subcontractor agrees that any such Assignment shall not relieve the Subcontractor of any of its agreements, duties, responsibilities or obligations under this Agreement and the other Contract Documents and shall not create a contractual relationship or a third party beneficiary relationship of any kind between PBC and such assignee or transferee. Subcontractor further agrees that all of PBC's defenses and claims arising out of this Agreement with respect to such Assignment are reserved unless expressly waived in writing by a duly authorized corporate officer. Subcontractor hereby agrees to indemnify and hold harmless the PBC and Construction Manager from and against any and all loss, cost, expense or damages the PBC. Construction Manager or Owner has or may sustain or incur in connection with such Assignment.

Termination for Convenience

Article XX. PBC shall have the right at any time by written notice to the Subcontractor, to terminate this Agreement without cause and require the Subcontractor to cease work hereunder, in which case, provided the Subcontractor be not then in default, PBC shall indemnify the Subcontractor against any damage directly resulting from such termination. In the event of such a termination for convenience, the Subcontractor shall be entitled to payment pursuant to the terms of the Agreement for all Work performed as of the date of termination, together with reasonable costs of demobilization and such other reasonable costs as may be encountered by the Subcontractor and directly attributable to such termination provided that such amount shall be reduced by all amounts for which Subcontractor is liable or responsible hereunder. However, the Subcontractor shall only be entitled to profit on that portion of the Work actually performed and approved for payment to the date of termination together with retainages held upon payments made prior thereto. Subcontractor waives any claim for loss of anticipated profits or other damages in the event PBC exercises this clause.

Guarantees

Article XXI. The Subcontractor hereby guarantees the Work to the full extent provided in the Plans, Specifications, General Conditions, Special Conditions and other Contract Documents.

The Subcontractor shall expeditiously remove, replace and/or repair at its own expense and at the convenience of the Owner any faulty, defective or improper Work, materials or equipment existing or discovered within one (1) year from the date of the acceptance of the Project as a whole by the Architect and the Owner or for such longer period as may be provided in the Plans, Specifications, General Conditions, Special Conditions or other Contract Documents.

Without limiting the generality of the foregoing, the Subcontractor warrants to the Owner, the Architect, the PBC and Construction Manager, and each of them, that all materials and equipment furnished under this Agreement will be of first class quality and new, unless otherwise required or permitted by the other Contract Documents, that the Work performed pursuant to this Agreement will be free from defects and that the Work will strictly conform with the requirements of the Contract Documents. Work not conforming to such requirements, including substitutions not properly approved and authorized, shall be considered defective. All warranties contained in this Agreement and in the Contract Documents shall be in addition to and not in limitation of all other warranties or remedies required and/or arising pursuant to applicable law. Failure of Subcontractor to honor and satisfy the foregoing and any other warranties or guarantees required of the Subcontractor under the Contract Documents, shall constitute a default by Subcontractor.

Accident Prevention

Article XXII. The Subcontractor agrees that the prevention of accidents to workmen and property engaged upon or in the vicinity of the Work is its responsibility. The Subcontractor agrees to

Page 12 of 18

comply with all Federal, State, Municipal and local laws, ordinances, rules, regulations, codes, standards, orders, notices and requirements concerning safety as shall be applicable to the Work, including, among others, the Federal Occupational Safety and Health Act of 1970, as amended, and all standards, rules, regulations and orders which have been or shall be adopted or issued thereunder, and with the safety standards established during the progress of the Work by PBC. When so ordered, the Subcontractor shall stop any part of the Work which PBC deems unsafe until corrective measures satisfactory to PBC have been taken, and the Subcontractor agrees that it shall not have nor make any claim for damages growing out of such stoppages. Should the Subcontractor neglect to take such corrective measures, PBC may do so at the cost and expense of the Subcontractor and may deduct the cost thereof from any payments due or to become due to the Subcontractor. Failure on the part of PBC to stop unsafe practices shall in no way relieve the Subcontractor of its responsibility therefore.

This Subcontractor acknowledges the receipt of Project's "Safety, Health and Environmental Policy", "Drug and Alcohol Abuse Policy" and Sexual Harassment Policy ". Subject to applicable law this Subcontractor further agrees to be bound to these policies as a part of the supplemental and special conditions to the contract for construction of the project.

In the event that hazardous substances of a type of which an employer is required by law to notify its employees are being used or stored on the site by the Subcontractor, the Subcontractor's subcontractors and anyone directly or indirectly employed or otherwise retained by them or either of them, the Subcontractor shall immediately provide written notice of the chemical composition thereof (including, without limitation, a copy of the applicable Material Safety Data Sheet) to PBC in sufficient time to permit compliance with such laws by PBC, other subcontractors and other employers on the site. In the event that the Subcontractor encounters on the site material reasonably believed to be hazardous substances (including, without limitation, asbestos or polychlorinated biphenyl) which has not been rendered harmless, the Subcontractor shall immediately stop Work in the area affected and immediately report the condition to PBC in writing. Work in the affected area shall resume when such hazardous substances have been rendered harmless or removed as determined by PBC in its sole and absolute discretion. To the extent of Subcontractor's responsibilities hereunder, Subcontractor does indemnify and save harmless PBC from and against any and all loss, injury, claims, actions, proceedings, liability, damages, fines, penalties, cost and expenses, including legal fees and disbursements, caused or occasioned directly or indirectly by the Subcontractor in regard to such hazardous substances.

Liability for Damage and Personal Injury

Article XXIII. The Subcontractor hereby assumes entire responsibility and liability for any and all damage or injury of any kind or nature whatever (including death resulting therefrom) to all persons. whether employees of any tier of the Subcontractor or otherwise, and to all property caused by. resulting from, arising out of or occurring in connection with the execution of the Work, or in preparation for the Work, or any extension, modification, or amendment to the Work by change order or otherwise. Except to the extent, if any, expressly prohibited by statute and excluding from this indemnity such acts or omissions, if any, of the party indemnified for which it is not legally entitled to be indemnified by the Subcontractor under applicable law, should any claims for such damage or injury (including death resulting therefrom) be made or asserted, whether or not such claims are based upon the PBC's, Construction Manager's or the Owner's alleged active or passive negligence or participation in the wrong or upon any alleged breach of any statutory duty or obligation on the part of the PBC, Construction Manager or the Owner, the Subcontractor agrees to indemnify and save harmless the PBC, Construction Manager and the Owner, their officers, assignees, agents, servants and employees from and against any and all such claims and further from and against any and all loss, cost, expense, liability, damage, penalties, fines or injury, including legal fees and disbursements, that Construction Manager, PBC and the Owner, their officers, agents, servants or employees may directly or indirectly sustain, suffer or incur as a result thereof and the Subcontractor agrees to and does hereby assume, on behalf of the PBC, Construction Manager and the Owner, their officers, agents, servants and employees, the defense of any action at law or in equity which may be brought against the PBC, Construction Manager and/or the Owner, their officers, assignees, agents. servants or employees upon or by reason of such claims and to pay on behalf of Construction Manager, PBC and the Owner, their officers, agents, servants and employees, upon demand, the

amount of any judgment that may be entered against the PBC, Construction Manager and/or the Owner, their officers, agents, servants or employees in any such action. In the event that any such claims, loss, cost, expense, liability, damage, penalties, fines or injury arise or are made, asserted or threatened against the PBC, Construction Manager and/or the Owner, their officers, agents, servants or employees, PBC shall have the right to withhold from any payments due or to become due to the Subcontractor an amount sufficient in its judgment to protect and indemnify Construction Manager, PBC and the Owner, their officers, assignees, agents, servants and employees from and against any and all such claims, loss, cost, expense, liability, damage, penalties, fines or injury, including legal fees and disbursements, or PBC in its discretion may require the Subcontractor to furnish a surety bond satisfactory to PBC guaranteeing such protection, which bond shall be furnished by the Subcontractor within five (5) days after written demand has been made therefore.

In addition to the Public Building Commission of Chicago and the Construction Manager (Turner Construction Company), the Indemnified Parties throughout this Agreement shall include: **Board of Education of the City of Chicago, City of Chicago, Chicago Transit Authority** and any of their respective officers, agents, servants, or employees, and affiliates, parents and subsidiaries.

Nothing contained in Article XXIII of this Agreement shall be deemed to obligate the Subcontractor to indemnify the PBC, Construction Manager, the Owner or any of the other Indemnified Parties, their officers, agents, servants or employees, and affiliates, parents and subsidiaries, against liability for damages or any other loss, damage or expense sustained, suffered or incurred on account of death or bodily injury to active persons or injury to property caused by the negligence or willful misconduct of the PBC, Construction Manager, the Owner or any of the other Indemnified Parties, their officers, agents, servants, or employees, and affiliates, parents and subsidiaries, or other subcontractors directly responsible to PBC. Therefore, if it is determined by legal proceedings or agreement, that the Subcontractor has no direct contributory or incidental negligence or other obligation to the PBC, Construction Manager, the Owner, or any Indemnified Party, and that the Subcontractor is in no way a proper party to a particular claim, then the Subcontractor shall not be obligated to hold the PBC, Construction Manager, the Owner or any Indemnified Party harmless with respect to said claim. However, until such determination is made by legal proceedings or agreement, or if the Subcontractor is found to have any degree of direct or contributory negligence or if it is determined that the Subcontractor is in any way or to any degree a proper party to said claim, then the Subcontractor's obligations under all of the terms and provisions of Article XXIII shall remain in full force and effect except to the extent caused by the negligence of the PBC, Construction Manager, the Owner or any Indemnified Party.

If PBC is determined by legal proceedings or agreement to be wholly or partially responsible for the claim for which indemnity is sought by reason of active, and not merely passive, negligence or willful misconduct on the part of PBC, then after such determination PBC shall reimburse the Subcontractor for a proportional share, based upon such negligence or fault attributed to PBC, of the defense cost expended by the Subcontractor in defending PBC.

Nothing in this provision, or elsewhere in this Agreement, shall be deemed to relieve the Subcontractor of its duty to defend the PBC, Construction Manager, the Owner, or any Indemnified Party, as specified in Article XXIII of this Agreement, pending a determination of the respective liabilities of the Subcontractor, the PBC, Construction Manager, the Owner, or any Indemnified Party, by legal proceeding or agreement.

In furtherance to but not in limitation of the indemnity provisions in this Agreement, Subcontractor hereby expressly and specifically agrees that its obligation to indemnify, defend and save harmless as provided in this Agreement shall not in any way be affected or diminished by any statutory or constitutional immunity it enjoys from suits by its own employees or from limitations of liability or recovery under worker's compensation laws.

Before commencing the Work, the following insurance coverages from insurance companies satisfactory to PBC shall be in place and maintained until completion and final acceptance of the

Work:

- 1. WORKERS' COMPENSATION AND EMPLOYERS' LIABILITY INSURANCE in accordance with laws of the State in which the Work is situated.
- 2. **COMMERCIAL GENERAL LIABILITY INSURANCE** INCLUDING COMPLETED OPERATIONS, CONTRACTUAL LIABILITY INSURANCE AGAINST THE LIABILITY ASSUMED HEREINABOVE, and including INDEPENDENT CONTRACTORS LIABILITY INSURANCE if the Subcontractor sublets to another all or any portion of the Work, Personal Injury Liability, Broad Form Property Damage (including completed operations), and Explosion, Collapse and Underground Hazards, with the following minimum limits:(Coverage shall be equivalent to ISO Occurrence Form 2001).

\$3, 000,000 / Occurrence \$6,000,000 General Aggregate

A) The above insurance coverages shall be provided by insurance companies selected by the Subcontractor. PBC shall have the right, without limitation, to reject any insurance company selected by Subcontractor that has an A.M. Best rating of less than A- or Standard and Peor's rating of less than AA or a Moody's rating of less than Aa. All costs are included in the Price and are to be paid by the Subcontractor.

OR

B) The above insurance coverages shall be provided through a consolidated insurance program arranged by Construction Manager as described and with limits of liability set forth in the Contract Documents and Subcontractor agrees to all terms and conditions, and makes all representations and warranties, associated therewith. \$78,462.00 (The "Insurance Cost") is included in the Price to pay for the premiums for the above insurance coverages for this Subcontractor and its subcontractors. Subcontractor shall include this Insurance Cost in its Application(s) for Payment (which Applications are to be submitted to the PBC and Construction Manager as provided herein) when and as directed by the PBC and Construction Manager. PBC will, when due, on behalf of the Subcontractor, make such payment by delivering the Insurance Cost (or the portion of the Insurance Cost that was included in the Application for Payment) to the relevant Worker's Compensation and General Liability insurance companies and PBC will deliver the balance of the Application for Payment due for Work completed to the Subcontractor. Upon completion of the enrollment process in the consolidated insurance program, the Subcontractor and its subcontractors will be provided with their own individual Worker's Compensation Policy by the consolidated insurance administrator and will be a named insured under the General Liability policy issued on the project on behalf of PBC and its designated Subcontractors. The Subcontractor will incur a premium expense payable through PBC for such premium and Subcontractor hereby commits to record these costs as outlined above. All executed change orders will include an additional premium for Worker's Compensation and General Liability as applicable and will be included in Applications for Payment submitted to PBC, expensed by the Subcontractor and the premium paid by Subcontractor through PBC, as outlined above.

OR

C) The above insurance coverages shall be provided through an Owner Controlled Insurance Program (OCIP) as described and with limits of liability set forth in the Contract Documents and Subcontractor agrees to all terms, and makes all representations and warranties, associated therewith.

OR

D) The above insurance coverages shall be provided by insurance companies selected by this Subcontractor. Subcontractor is an Excluded Party to the consolidated insurance program as described in the CCIP Manual (a Contract Document) for its own self-performed work and any Excluded Party lower tier subcontractor (if applicable) to the consolidated insurance program arranged by Construction Manager. All costs for Subcontractor's insurances are included in the Price and are to be paid by the Subcontractor. For Subcontractor's Enrolled Party lower tier subcontractors, the above insurance coverages shall be provided through a consolidated insurance program arranged by Construction Manager. \$N/A (The "Insurance Cost") is included in the Price to pay for the

premiums for the above insurance coverages for this Subcontractor's Enrolled Party subcontractor(s) only. Subcontractor shall include this Insurance Cost in its Application(s) for Payment (which Applications are to be submitted to PBC as provided herein) when and as directed by PBC. PBC will, when due, on behalf of the Subcontractor, make such payment by delivering the Insurance Cost (or the portion of the Insurance Cost that was included in the Application for Payment) to the relevant Worker's Compensation and General Liability insurance companies and PBC will deliver the balance of the Application for Payment due for Work completed to the Subcontractor. Upon completion of the enrollment process in the consolidated insurance program, the Subcontractor's subcontractors will be provided with their own individual Worker's Compensation Policy by the consolidated insurance administrator and will be a named insured under the General Liability policy issued on the project on behalf-of PBC and-its designated Subcontractors. The subcontractors, by way of this Subcontractor, will incur a promium expense payable through PBC for such promium and subcentractors, through this Subcentractor, hereby commits to record these costs as outlined above. All executed change orders will include an additional premium for Worker's Compensation and General Liability as applicable and will be included in Applications for Payment submitted to PBC, expensed by the subcentractors, through this Subcontractor, and the premium paid by subcontractors through this Subcontractor and PBC, as outlined above.

Subcontractor acknowledges that if any of the above insurance coverages are provided through a consolidated program arranged by Construction Manager- B) and D) or through an OCIP-C), such coverage will not apply to any operations off of the premises, and Subcontractor shall provide the above insurance coverages with respect to off-premises operations.

Before commencing the Work, the Subcontractor shall procure and maintain, at its own expense, until completion and final acceptance of the Work at least the following insurance from insurance companies satisfactory to PBC:

3. **COMMERCIAL AUTOMOBILE LIABILITY INSURANCE** covering all owned, non-owned and hired automobiles used in connection with the Work, with the following minimum limits:

\$1,000,000 / Accident

Before commencing the Work, the Subcontractor shall furnish a certificate(s), satisfactory to PBC from each insurance company showing that the above insurances (1, 2A, 3 and CGL operations off of the premises under 2B, 2C and 2D) are in force, stating policy numbers, dates of expiration, and limits of liability thereunder, and further providing that the insurance carrier will endeavor to provide PBC with 30 days advance written notice of any cancellation, change or expiration. Subcontractor shall advise PBC of the amount of any Self-Insured Retention that exists on any policies of insurance on the face of the certificates provided. PBC, Construction Manager, the Owner and other entities as may be reasonably requested shall be named as additional insureds under these policies of insurance maintained by the Subcontractor (with the exception of Workers Compensation insurance), whether during the performance of the Work or any time thereafter, that may in any respect be applicable to matters, claims or suits arising out of or related to this Subcontract Agreement, and Subcontractor will submit with the certificate of insurance a copy of an endorsement on I.S.O. Form C.G. 20-10 11/85 or equivalent by which all parties required to be listed by Subcontractor as an additional insured are deemed so listed. Subcontractor hereby waives all rights of recovery from the PBC and Construction Manager and Owner, including but not limited to rights of subrogation, with respect any matter, claim or suit that is to be covered by insurance to be maintained by Subcontractor pursuant to the Contract Documents

It is expressly agreed and understood by and between Subcontractor and PBC that all insurance, whether issued on a primary or excess basis, afforded the additional insureds shall be primary insurance to any other insurance available to the PBC and Construction Manager and that any other insurance carried by the PBC and Construction Manager shall be excess of all other insurance carried by the Subcontractor and shall not contribute with the Subcontractor's insurance. Subcontractor further agrees to provide endorsements on its insurance policies that shall state the

INITIAL ED FOR:
SUBCTR TURNER

foregoing; however, Subcontractor's failure to provide such endorsement shall not affect Subcontractor's agreement hereunder.

If the Subcontractor fails to procure and maintain such insurance, if required, PBC shall have the right, but not the obligation, to procure and maintain the said insurance for and in the name of the Subcontractor and the Subcontractor shall pay the cost thereof and shall furnish all necessary information to make effective and maintain such insurance or at PBC's option, PBC may offset the cost incurred by PBC against amounts otherwise payable to Subcontractor hereunder. If, in PBC's discretion, PBC is concerned that any insurance company selected by Subcontractor has, at any time, faced diminished financial strength or that the insurance company may no longer provide the same level of financial strength (such as a decline in an A. M. Best, Standard and Poors or Moody's rating), PBC may require that Subcontractor provide replacement insurance coverage through an insurance company satisfactory to PBC.

Bonds

Article XXIV. The Subcontractor shall furnish to PBC a performance bond in the amount of **\$N/A** and a separate payment bond in the amount of **\$NA** the form and contents of such bonds and the Surety or Sureties thereon to be satisfactory to PBC. Such bonds shall be furnished to PBC within ten (10) calendar days after Subcontractor has executed this Agreement or within such other time period agreed to by PBC in writing. In the event Subcontractor fails to furnish such bonds to PBC within the time period as hereinabove provided, such failure shall constitute a default under this Agreement in which event PBC shall have all of the rights and remedies provided in Article XI hereof with respect to default on the part of Subcontractor including, without limitation, the right to terminate this Agreement.

Without limiting the responsibilities of Subcontractor and its Surety under the terms of this Agreement, Subcontractor and its Surety hereby agree to promptly pay all lawful claims of subcontractors, materialmen, laborers, persons, firms or corporations for labor or services performed or materials, supplies, machinery equipment, rentals, fuels, oils, tools, appliances, insurance and other items furnished, used or consumed in connection with the prosecution of the Work provided for in said Subcontract and any and all modifications thereof, and shall indemnify and save harmless the PBC and Construction Manager of and from all liability loss, damage and expense, including interest, costs and attorney fees, which the PBC and Construction Manager and/or its Surety may sustain by reason of Subcontractor's or its Surety's failure to do so.

Subcontractor and its Surety hereby agree to execute and deliver to PBC when requested in connection with the issuance of change orders under this Agreement, Rider "A" amendments (or other documents as PBC may require) increasing the amount (Penal Sum) of the Payment and Performance Bonds furnished by the Subcontractor. The reasonable premiums or other charges paid by the Subcontractor for the procurement of the Rider "A" amendments will be paid as a change to this Agreement.

Severability

Article XXV. In the event that any provision or any part of a provision of this Agreement shall be finally determined to be superseded, invalid, illegal or otherwise unenforceable pursuant to applicable laws by an authority having jurisdiction, such determination shall not impair or otherwise affect the validity, legality, or enforceability of the remaining provisions or parts of provisions of this Agreement, which shall remain in full force and effect as if the unenforceable provision or part were deleted.

SUBCTR TURNER

Entire Agreement

Article XXVI. This Agreement constitutes the entire agreement between the parties hereto. No oral representations or other agreements have been made by PBC except as stated in the Agreement. This Agreement may not be changed in any way except as herein provided, and no term or provision hereof may be waived by PBC except in writing signed by its duly authorized officer or agent. Subcontractor acknowledges and represents that it completed and submitted to PBC and Construction Manager a prequalification questionnaire, that all statements therein were true, accurate and complete, and that the PBC and Construction Manager have relied on such statements in deciding to enter into this Agreement. The marginal descriptions of any term or provision of this Agreement are for convenience only and shall not be deemed to limit, restrict or alter the content, meaning or effect thereof.

The said parties, for themselves, their heirs, executors, administrators, successors and assigns, do hereby agree to the full performance of all of the terms and provisions herein contained.

In Witness Whereof the parties to these presents have hereunto set their hands as of the day and year first above written.

ADDITIONAL PROVISIONS

A. Structural Steel Work as described in the following documents:

- 1. Purchase Requisition Bid Package 05100 Structural Steel dated November 3, 2009 (8 pages attached).
- Turner's Bid Information Letter #1 Concrete, Steel, Waterproofing, and Elevator Bidders dated 11/12/09 (2 pages attached).
- 3. Turner's Bid Information Letter #2 Concrete, Steel, Waterproofing, and Elevator Bidders dated 11/13/09 (1 page attached).
- Turner's Bid Information Letter #3 Concrete, Steel, and Waterproofing Bidders dated 11/16/09 (2 pages attached).
- 5. Turner's Bid Information Letter #4 Concrete, Steel, and Waterproofing, and Bidders dated 11/17/09 (2 pages attached).
- Turner's Bid Information Letter #5 Concrete, Steel, and Waterproofing Bidders dated 11/18/09 (2 pages attached).
- 7. Turner's Bid Information Letter #6 Concrete, Steel, and Waterproofing Bidders dated 11/19/09 (2 pages attached
- 8. Turner's Bid Information Letter #7 Concrete Bidders dated 12/09/09 (1 page attached).
- 9. Drawing List dated October 22, 2009 (10 pages attached).
- Project Schedule "Early Trade Schedule" Run Date September 11, 2009 (2 pages attached).
- 11. Turner Document Submittal Checklist (1 page attached).
- 12. Turner Bid Form dated November 3, 2009 (4 pages attached).
- 13. Exhibit 1 Required Public Building Commission Subcontract Provisions (Please reference Section 6 of Procedures Manual for this document):
 - a. Schedule 2 Affidavit of Non-Collusion (1 page attached).
 - Schedule 4 Affidavit of Uncompleted Work (4 pages attached).
 - Schedule 8 Disclosure of Retained Parties (3 pages attached).
 - d. Schedule C Letter of Intent from MBE/ WBE to Perform as Subcontractor, Subconsultant, and/ or Material Supplier (8 pages attached).
 - e. Schedule D Affidavit of General Contractor/ Subcontractor Regarding MBE/ WBE Participation (2 pages attached).
 - f. Schedule E Request for Waiver from MBE/ WBE Participation (1 page attached).

- 14. Contractor Controlled Insurance Program (CCIP) Insurance Manual Final Version dated 10/13/09 (1 page Acknowledgement sheet attached).
- 15. Ogden Replacement Elementary School's Procedures Manual dated October 22, 2009 (1 page Acknowledgement sheet attached).
- Ogden Replacement Elementary School's Project Site Specific Safety Plan (1 page Acknowledgement sheet attached).
- 17. Subcontractor's verified Aon Form 1a (to be attached thru a Subcontract Information Letter when verified by Aon).
- 18. Formula for Changes (1 page attached).
- 19. Geotechnical Subsurface Investigation, prepared by Environmental Protection Industries dated September 28, 2009.
- 20. Phase I Environmental Site Assessment Report prepared by Bradburne, Briller & Johnson, LLC dated September 30, 2008.
- Retention System Contractor Drawings ERS1.0, ERS2.0, and ERS3.0 dated October 26, 2009.
- B. The Scope of the Structural Steel Work includes, but is not necessarily limited to, providing the following:
 - 1. Reference attached Purchase Requisitions in Item A. 1 above.
 - Provide all work under this Subcontract Agreement in strict accordance with the
 information reflected in the Contract documents listed in Item A. of these Additional
 Provisions and the amplifications and clarifications which shall supersede the information
 listed in Item A., if a conflict arises.
 - 3. It is understood that this Subcontractor shall provide (furnish, unless otherwise noted in Item A. and install) all requirements of the Structural Steel Work specifically defined in the following specification sections and as clarified in all related specifications- and drawings of the remaining contract documents:

<u>Primary Specifications</u> (Reference Purchase Requisition)

4. The work of this Agreement shall include, but not be limited to, all labor, materials, apparatus, hoisting, rigging, tools, equipment, plant, supplies, accessories, samples, submittals, shop drawings, certifications, engineering, layout, transportation, storage, supervision, temporary construction, special services, contributions, insurance, taxes (unless specifically excluded by the Contract Documents), compliance with all governing agencies (city, county, state, federal and others as may be required), permits, fees, all other services and facilities and other items necessary for the performance of the Structural Steel Work as shown, detailed and/or implied in the contract documents outlined in Item A. above.

INMALED FOR:
SUBCTR TURNER

- C. The Scope of the Structural Steel Work specifically <u>excludes</u> the following:
 - Reference exclusions in attached Purchase Requisitions in Item A. 1 above.
 - 2. Sales Tax on permanently installed materials.
 - Performance and Payment bonds.
- D. The Scope of the Structural Steel Work includes, but is not necessarily limited to, the following understandings and stipulations:
 - Reference attached Purchase Requisitions in Item A. 1 above.
 - 2. It is agreed that one (1) management employee of the subcontractor who will be directly involved on the project will be either a LEED Accredited Professional, or LEED Accredited Professional + as verified by the USGBC, or will be required to complete the online LEED training course offered via USGBC entitled "LEED Core Concepts & Strategies Online course" which may be accessed via www.usgbc.org. (http://www.usgbc.org/DisplayPage.aspx?CMSPageID=1760#CCSON).
 - Notwithstanding anything contained in the Agreement to the contrary, Subcontractor shall have the right to bill and be paid for its retainage to the extent allowed by the Owner in accordance with the General Contract.
 - 4. Safety:
 - a. Subcontractors whose contract value meets or exceeds \$10M (including Change Orders), must have a full time safety representative on site.
 - b. Subcontractors who contract value is between \$10M and \$5M (including Change Orders), must have two (2) employees on site who are OSHA 30 hour trained.
 - Subcontractors whose contract value is less than \$5M (including Change Orders), must have one (1) employee on site who is OSHA 30 hour trained.
 - Subcontractor's EMR shall be less than 1.0.
 - 5. It is understood that Turner Construction will be issuing joint checks to this Subcontractor and their respective second tier subcontractor(s).

E. LIQUIDATED DAMAGES

Subcontractor acknowledges that Turner's contract with the Owner contains liquidated damages. This Subcontractor will be responsible only for costs to mitigate any delay or prorated damage based on his contribution to the delay as dictated by our general contract.

F. CLAIM FOR EXTENSION OF TIME

The Subcontractor agrees that each change proposal submitted by him will contain a statement as to the increase or decrease (if any) in the time of completion of the Work caused by the change. If a proposal does not contain a statement advising of a change in the time of completion, Subcontractor agrees that there is no change in the time of completion.

G. <u>HAZARD COMMUNICATION STANDARDS</u>

The Subcontractor agrees to comply with all Federal, State and Local Safety Rules included in OSHA's Expanded Hazard Communication Standards. An MSDS must be submitted at least seven (7) days prior to each material being delivered to the jobsite. Strict adherence will be mandatory.

H. CHANGE PROPOSALS

Prompt pricing of changes to the Scope of Work is required. This Subcontractor will provide Turner with an approximate value of a change within three (3) days or less of receipt of the documents and a quotation within seven (7) days or less. If notification is not received within this time frame, Turner will consider the change as a no-cost change.

i. MBE/WBE PARTICIPATION

This Subcontractor is a certified Minority Business Enterprise.

J. SHOP DRAWINGS

(Reference Procedures Manual for Subcontractors)

K. ON-SITE WORKERS COMPENSATION AND ON-SITE GENERAL LIABILITY INSURANCE

The insurance coverages shall be provided through a consolidated insurance program arranged by Turner. \$78,462.90 (The "Insurance Cost") is included in the Price to pay for the premiums for the above insurance coverages for this Subcontractor and its sub-subcontractors. Subcontractor shall include this Insurance Cost in its Application(s) for Payment (which Applications are to be submitted to Turner as provided herein) when and as directed by Turner. Turner will, when due. on behalf of the Subcontractor, make such payment by delivering the Insurance Cost (or the portion of the Insurance Cost that was included in the Application for Payment) to the relevant Worker's Compensation and General Liability insurance companies and Turner will deliver the balance of the Application for Payment due for Work completed to the Subcontractor, Upon completion of the enrollment process in the consolidated insurance program, the Subcontractor and its sub-subcontractors will be provided with their own individual Worker's Compensation Policy by the consolidated insurance administrator and will be a named insured under the General Liability policy issued on the project on behalf of Turner and its designated Subcontractors. The Subcontractor will incur a premium expense payable through Turner for such premium and Subcontractor hereby commits to record these costs as outlined above. All executed change orders will include an additional premium for Worker's Compensation and General Liability as applicable and will be included in Applications for Payment submitted to Turner, expensed by the Subcontractor and the premium paid by Subcontractor through Turner, as outlined above.

Insurance is based on a Contractor Controlled Insurance Program (CCIP), which covers on-site Workers' Compensation and Commercial General Liability Insurance as described in the Contractor Controller Insurance Program Administrative and Claims Procedure Manual. The CCIP does not cover off-site Workers' Compensation, off-site General Liability, Auto Liability and Contractor Equipment Coverage. Subcontractors are required to provide a certificate of insurance that evidences their insurance policies for items not covered by the CCIP and lists the applicable additional insureds as follows: Turner Construction Company, Public Building Commission of Chicago, Board of Education of the City of Chicago, City of Chicago, and Chicago Transit Authority (see attached one (1) page "Sample" certificate).

L. <u>E & O INSURANCE:</u>

Subcontractor recognizes that he will be responsible for any negligent error or omission in his own Work, and therefore, is required to provide **Professional Liability Insurance** in an amount not less than **\$2,000,000**. Provider shall immediately submit evidence of said insurance (Turner shall under no circumstances be named as additional insured on professional liability insurance).

M. ALTERNATES

Alternates shall be complete for providing only the Work with no other credits. All alternate prices are to be priced as stand-alone alternates. Any number of alternates, or no alternates, may be accepted as part of this Work.

1. Reference attached Purchase Requisitions in Item A. 1 above.

N. ALLOWANCES

The following are established Allowances that we included within the Contract price. This Subcontractor must receive Turner's written approval to charge time against or spend the Allowances. All unused/unspent Allowance dollars will revert back to Turner/Owner 100%.

Reference attached Purchase Requisitions in Item A. 1 above.

O. <u>UNIT PRICES</u>

The following unit prices are applicable for changes in the Work. The unit prices are for Work complete and in place and include all costs such as material, labor, equipment, freight, taxes, insurance, fringe benefits, and overhead and profit. Turner reserves the right not to use any of the below stated unit prices and request labor and material breakdowns.

All unit prices, unless otherwise noted, are to include all incidental work normally required in connection with the particular type of work involved for the life of the project and would include, but not necessarily be limited to: a) All engineering including calculations, detailing and shop drawings, b) All material costs including an allowance for waste, c) Providing all necessary accessories, c) All fabrication and shop costs, d) All shop and field labor including supervision and engineering layout costs, e) All shop and field labor including supervision and engineering layout costs, f) All temporary utilities required including safety precaution, g) All costs of standby trades during or beyond normal working hours, h) All escalation, bond premiums, overhead and profit, and insurance (with CCIP Program reflected, if applicable), i) All transportation and freight costs, j) Quantities applied against Unit Prices will be neat plan measure without any further allowances for laps, waste connections and accessories unless otherwise noted, k) All equipment costs including oilers, fuel, maintenance, insurance, delivery and removal from site, l) Unit Prices involving offsite operations include insurance, as offsite operations are **not** covered by CCIP.

- Reference attached Purchase Requisitions in Item A. 1 above.
- Wage rates per the attached two (2) Wage Rate Sheets.

END OF ADDITIONAL PROVISIONS

Ogden Replacement Elementary School 24 W. Walton Street Chicago, Illinois 60610 Contract No. 16324

November 3, 2009

PURCHASE REQUISITION Bid Package 05100 Structural Steel

1. **GENERAL REQUIREMENTS:**

Per the Bid Checklist, two hard copies of the completed bid forms are due to Turner Construction by November 19th, 2009, *no later than 1:00p.m CST.* Please send two original copies, in a single sealed envelope, to Turner Construction Company at 55 East Monroe, Ste 3100, Chicago, Illinois 60603 to the attention of Pete Woeste.

This purchase requisition is being provided for your use as a general guideline. Please note, this Document is not all-inclusive; it is the Subcontractor's responsibility to provide a complete bid. It is this Subcontractor's responsibility for the entire scope of this Bid Package and coordination between All Trades. The Work of this Agreement shall include, but not be limited to, all labor, material, tools, equipment, hoisting, plant, supplies, samples, shop drawings, layout, transportation, parking, supervision, contributions, compliance with all agencies (City, County, State, Federal as may be required), all other services and facilities and other things necessary for the performance of the **Structural Steel** as shown, detailed, and/or implied by the following documents and as defined herein.

- A. Turner Construction Company's Procedures and Safety Manual dated October 22, 2009.
- B. Turner Construction Company's Document List dated October 22nd, 2009, including plans and specifications.
- Turner's Bid Form dated November 3rd, 2009.
- D. For reference, Ogden School proposed earth retention system drawings ERS1, ERS2, and ERS 3 dated 10/26/2009.
- E. Specifically include all Division 1 specifications and the following specification sections:

PRIMARY

05120 - Structural Steel 05311 - Steel Roof Deck 05312 - Steel Floor Deck 09910 - LEED Finish Painting

SECONDARY

05500 - Metal Fabrications

2. The Scope of the Structural Steel Work includes, but is not limited to, providing the following:

- A. This Subcontractor shall employ a qualified union survey engineer to perform all layout, survey and quality control work as required for the accurate erection of the structural steel. Turner will supply initial building control lines. This Subcontractor will be responsible for field checking and survey of all items listed below:
 - All anchor bolts, poured-in place bearing surfaces, welding plates or similar devices.
 - b. Elevations and locations of base plates and anchor bolts.
 - c. Locations and plumbness of all columns.
 - d. Verify plumbness of elevator shafts.
- B. Provide survey noting any deviations in writing to Turner in sufficient time so that required corrections can be made without delay to the scheduled start of the structural steel operation.
- C. Any lane closures, permits, traffic plans, reroute directional signage, off duty police traffic control, and barricades not detailed on the Ogden School Logistics plans in the Procedures Manual that are required for your work are to be included with this subcontractor.
- D. Sequence work to begin on the East side of the site, working West.
- E. Include all scaffolding, cranes, hoisting, rigging and final placement required for all materials and equipment necessary for the proper completion of the work.
- F. Complete calculations for all typical and non-typical connections as required/specified. Calculations are to be sealed by a Structural Engineer licensed in the State of Illinois. Structural Engineer is to carry a minimum of \$2,000,000 of Professional Liability Insurance.
- G. Fabrication and erection of all structural steel as indicated on the structural drawings and specifications.
- H. Furnish and install all angels, channels, and bent plate including associated anchor bolts and washers as shown in the structural drawings, including all shoring required and coordination with the mason subcontractor. Reference sheets S4.2 and S4.3 for examples of locations.
- I. Furnish and install metal deck and all accessories indicated on the structural drawings and specifications.
- Furnish and install shear studs as indicated in the structural drawings and specifications.
- K. Furnish and install, at fabrication plant, masonry column supports for all beams and columns at all CMU locations. As referenced in drawing A6.6.1 detail A1, include ¼" crimped wire anchor ties welded to column and 7" high galvanized angles. Supports to be installed on each side of the beam or column where CMU will be present.
- L. Furnish and install pre-fabricated (firetrol) proofed columns as indicated on the drawings.
- M. All temporary erection materials including cables, shoring, temporary bracing, leveling and setting nuts/screws, etc.

INITIALED FOR:
SUBCTR TURNER

- N. Subcontractor shall be responsible for the temporary bracing & support requirements and structural integrity of the building during erection of structural steel.
- O. Subcontractor shall install temporary bracing members through permanent openings provided that said bracing members are removed by Subcontractor in a timely manner so as NOT to delay other trades from completing their work.
- P. Include furnishing and installing an additional 2 tons of steel for wind bracing coordination with mechanical, electrical, and plumbing contractors.
- Q. Include furnishing and installing an additional 3 tons of steel for support of mechanical equipment shown in section 2 of M5.3.
- R. Provide all exposed beams with painted finish per the specifications. These beams should be prepared with an architectural finish. For example, the exposed beams in the gymnasium and library.
- S. Subcontractor's proposed steel erection operation must be presented to both the General Contractor and Structural Engineer prior to its use, so as to insure that the proposed erection system has been carefully sequenced and coordinated and not to adversely affect the structural design or overall construction sequences of the project.
- T. Construction splices are included as required for erection load capacities.
- U. Subcontractor is responsible for the furnishing and installation of all secondary steel framing including but not limited to all indicated floor openings, deck support conditions, slab-edge and slab elevation transition conditions (angles, tubes, HSS), ledger angles as indicated on the Structural Drawings.
- V. Concrete Subcontractor will be responsible for all grouting of structural steel column and beam base plates. Base plates provided and installed by Structural Steel Subcontractor will be fabricated with pre-drilled grout holes per S4.0.
- W. Verify metal deck is of a sufficient gauge so that shoring is not required for the spans as shown on the structural drawings. If shoring is required than this is the responsibility of this Subcontractor.
- X. Furnish and install all metal deck stiffeners as shown on the structural drawings.
- Y. Furnish and install any closures, flashings, pour stops, bent metal plates, etc., which are required at any interruption or termination in Subcontractor's metal deck to provide a concrete leak-proof assembly.
- Z. Furnish and install all necessary deck accessories to accommodate expansion joints as shown or inferred from the contract documents.
- AA. Provide for the field-notching of metal decking as required to provide block-outs for the temporary guy wires, hoist cables and OSHA guardrail stanchions at all areas, as required for structural steel erection operation.
- BB. There will be no on-site laydown/storage/shake-out area for Subcontractor's materials other than the building. All delivered materials to be immediately erected off the trucks.

UNITIALED FOR:

- CC. Provide for a fire watch during this subcontractors operations. Subcontractor, as part of his fire watch, will have hand-portable fire extinguisher equipment as necessary to provide protection for his operation only.
- DD. Subcontractor will incorporate the use of fire blankets during welding operations. Subcontractor will be responsible for any damage due to falling sparks.
- EE. Subcontractor is responsible for providing two (2) lines of safety cable and necessary stanchions (where column spans exceed OSHA cable support spacing), miscellaneous angles and accessories. Safety cables are included at all interior openings and around the exterior perimeter of all levels of the project including interior (greater than 1 sf opening) shafts, openings, stairwells, elevator shafts, and roofs as necessary and in accordance with OSHA requirements. Include installation of 1' length yellow caution tape every 6' along the cables. Cables shall be in 100' long maximum lengths in order to facilitate the removal process during installation of the exterior wall system and in order to maintain perimeter safety in those areas where the exterior wall has yet to be installed. Subcontractor shall be responsible for coordinating stanchions for safety cables with perimeter curtainwall embeds. Exterior wall subcontractor will be responsible for removing the perimeter safety cables at a later date and stockpiling same on each respective level for final pickup and removal from the site by the Structural Steel Subcontractor. Cable will remain the property of the Structural Steel Subcontractor. Structural Steel Subcontractor shall be responsible for the routine maintenance and periodical re-tensioning of the perimeter cables while working on the floor. Perimeter and interior safety cable height shall be based off of either top-of-slab and/or top-offill-slab, whichever results in the highest railing height. Upper-cable and lower-cable to be utilized as a guardrail must be in accordance with OSHA "Fall Protection Systems Criteria and Practices".
- FF. Provide City of Chicago approved safety mesh attached to building perimeter safety cables on all floors to a height of 42" from floor slab. Include 2x4 continuous wood stud anchoring bottom of mesh to the floor slab between all columns.
- GG. Install perimeter safety cables on floors 1, 2, 3, and penthouse with steel washers welded to the inside face of the vertical columns to avoid fireproofing damage. System to be designed by this subcontractor to meet all OSHA required loads.
- HH. Safety cables on roofs to be installed 3' off perimeter edge of opening or building so not to interfere with exterior masonry parapet walls. This subcontractor is to cut around metal deck to allow installation of stanchions.
- II. Provide four (4) access bays with turnbuckles on every floor so that this perimeter safety cable can be dropped down and removed from each floor as required for floor stocking purposes (One (1) access bay on each side of building).
- JJ. Subcontractor shall provide and maintain ladders for use by his crews at stair openings prior to stair installation.
- KK. This Subcontractor furnish all embeds, anchor bolts, and setting plates for the structure. This subcontractor shall furnish detailed drawings indicating the required location of the embeds, anchor bolts, and setting plates for coordination with Turner and the Concrete Subcontractor within four (4) weeks of contract award.

- LL. This Subcontractor and concrete subcontractors shall provide for mutually acceptable tolerances. This includes coordination of tolerances shown in the Subcontract Documents, the provision of suitably sized embed plates and coordination of all connection and interface details.
- MM. This subcontractor shall furnish templates/setting plates to be used by the concrete subcontractor to install anchor bolts.
- NN. This subcontractor is responsible for participating in the BIM coordination process, including designing the Structural 3D model in formats mutually agreed upon with Turner as detailed in the Turner Procedures Manual section 3, subsection 9.
- OO. This subcontractor will participate in BIM (building information modeling) coordination process. Nominally this subcontractor will be required to include the monthly fee of \$150 for the NavisWorks license for nine months. Also, this subcontractor will include 4 hours per week for your designated project manager and 4 hours per week for your designated BIM manager to attend coordination meetings for 2 weeks with laptop. The specific level of coordination, process requirements, schedule milestones, contractor interaction, etc., is described in the BIM Implementation Plan in Section 3, Subsection 9 in the Procedure Manual. The costs required to implement plan as detailed in the Procedure Manual shall be included.
- PP. A schedule of activities should be submitted with the bid including mobilization and each duration. This schedule will need to be cost loaded per activity with no more than 5 days duration per activity. This schedule will be submitted for review 21 days after award. Multiple crews maybe required to meet the proposed schedule. Reasonable weather delays, consideration to sequencing of other trades and appropriate lead-times for engineering, submittals, approvals, fabrication and installation must be considered.

Contractor shall comply with the below schedule, subject to changes, as required:

a. The project substantial completion is scheduled for July 1st 2011.

3. The Scope of the Structural Steel Work excludes the following:

- A. Sales Tax. For material that is part of the permanent building.
- B. On-site insurance costs. (Insurance will run through a CCIP program).
- C. Independent testing. (By Owner).
- D. Temporary power for the Subcontractor's welding machines and stud guns. (By Electrician).
- E. Grouting. (By Concrete Subcontractor).

- 4. The Scope of the Structural Steel Work is based on the following understandings, stipulations and/or clarifications:
 - A. BID CHECKLIST: This subcontractor must be in full agreement to the following items for the bid to be considered responsive. Submit a Request for Information (RFI) five (5) days prior to the bid date with any issues or questions to the below items. A Bid Information Letter (BIL) will be issued with a response to all questions prior to the bid:
 - a. Use all specified material and include all items in **Structural Steel** Requisition and Turner Procedures Manual.
 - b. Include all LEED requirements detailed in the specifications.
 - Agree to the schedule and phasing timeframes detailed in the Turner Procedures Manual.
 - Agree to the logistics plan detailed in the Turner Procedures Manual.
 - e. Minimum 50% Chicago Residency.
 - f. Minimum 7.5% Local Chicago Residency (Near North Side and Westtown).
 - g. Providing all guarantees, certifications, and/or warranties as required by the documents.
 - h. Includes daily cleaning of this trades scope of work.
 - Sales tax excluded for material made part of permanent building items.
 - j. Agree to sign Turner's Subcontractor Form #36 without modifications.
 - k. Include two (2) completed hard copies of the "Document Submittal Checklist" items and all associated documents located in the Procedures Manual.
 - Include completed equipment rates with bid.
 - Include completed wage rate sheets with bid.
 - On Site General Liability and Workers Compensation Insurance EXCLUDED (CCIP Project).
 - Agree to the Site Specific Safety Plan detailed in the Turner Procedures Manual.
 - p. Include all Hoisting, Rigging, and Scaffolding required for your Work.
 - Include all permits specific to your trade (Foundations and Building Permit by Turner/PBC).
 - Include 100% Union field labor. Office supervision excluded.
 - s. Labor and Material Escalation Included through Project Completion: June 2011

SUBCTR TURNER

- B. It is understood that the intent of the documents enclosed are to represent complete bid documents. Subcontractor should include in its bid price all work that the subcontractor views as necessary to be consistent with the document intent, industry standards and applicable codes to provide a complete job.
- C. The Subcontractor acknowledges and represents that the Subcontractor has visited the site of the Project to become familiar with the existing improvements and physical conditions of the site. Site visits shall be coordinated through Turner. Access roads and haul roads will be limited to those indicated on the site logistics plan only.
- D. Turner Construction Company will provide temporary power for small tools and egress lighting once the basement with first floor elevated is installed. All welding and/or stud machines must be gas, there are no provisions for electric welding and/or stud machines.
- E. If, at any time, the safety of any existing or new construction, utilities, etc., appear to be endangered, subcontractor shall, at its own expense, take all proper means, including any additional bracing and/or shoring necessary to safeguard and prevent any such movement or settlement, and to support such structures.
- F. The project construction manager, Turner Construction, has liquidated damages as part of the contract with the Public Building Commission. This subcontractor will strive to work with Turner as not to delay completion of the project.
- G. Onsite insurance will be provided through a CCIP program. Reference the CCIP manual included in the Procedures Manual for additional information.
- H. This project is committed to achieving LEED Gold certification per the USGBC NC 2.2 criteria. This subcontractor is responsible for all requirements, submittals, and documentation required in the LEED specifications and process.
- It is agreed that one (1) management employee of the subcontractor who will be directly involved on the project will be either a LEED Accredited Professional, or LEED Accredited Professional + as verified by the USGBC, or will be required to complete the online LEED training course offered via USGBC entitled "Essentials of LEED Professional Accreditation" which may be accessed via www.usgbc.org.

5. UNIT PRICES

The supplied unit prices are applicable for changes in the Work. The unit prices are for Work complete and in place and include all costs such as material, labor, equipment, freight, taxes, insurance, fringe benefits, and overhead and profit. Turner reserves the right not to use any of the below stated unit prices and requested labor and material breakdowns. All unit prices shall be valid for both additive and deductive changes to the work. All unit prices, unless otherwise noted, are to include all incidental work normally required in connection with the particular type of work involved for the life of the project and would include, but not necessarily be limited to:

- A. All engineering including calculations, detailing and shop drawings.
- B. All material costs including an allowance for waste.
- Providing all necessary accessories.
- D. All fabrication and shop costs.

SUBCTR TURNER

- E. All shop and field labor including supervision and engineering layout costs.
- F. All temporary utilities required including safety precaution.
- G. All costs of standby trades during or beyond normal working hours.
- H. All escalation, bond premiums, overhead and profit, and insurance (with CCIP Program reflected.)
- I. All transportation and freight costs.
- J. Quantities applied against Unit Prices will be neat plan measure without any further allowances for laps, waste, connections and accessories unless otherwise noted.
- K. All straight time equipment rental costs including oilers, fuel, operators, maintenance, insurance, delivery and removal from site.
- L. Unit Prices involving offsite operations include insurance, as offsite operations are not covered by CCIP.

DOCUMENT:

2 pages for Bid Information Letter, 16 Pages of Attachments

Concrete, Steel, Waterproofing, and Elevator Bidders:

Please review the following information and include all updated information in your bid:

- Updated specification sections are attached to this BIL and are available on the project FTP site, located at: http://drop.io/ogdenschool. These changes includes the following:
 - Updated specification section 14210: Electric Traction Elevator dated
 11/09/2009 (Attached 10 Page Document)
- Items 2, 3, and 4 of the Concrete, Structural Steel, Waterproofing, and Elevator requisitions should begin with "The scope of Work..." in lieu of the current requisitions which read "The scope of the Excavation Work".
- The attached RFI responses are to be included in the bid:
 - o RFI 001
 - o RFI 002
 - o RFI 003
 - o RFI 004
 - o RFI 005
- The following items are to be included in the Concrete bid:
 - Bid Requisition number 2.000 should be updated to include a Cost and Craft loaded schedule. This schedule is not required at the bid.
 - The concrete contractor is to provide 75 crane picks for other trades.
 Turner's superintendent will authorize and track the number of picks.
 - A single jobsite trailer will be allowed onsite for the concrete subcontractor only. Location and time frame to be coordinated and agreed to by Turner staff.
 - The FF and FL numbers in the bid documents are project requirements and costs associated with them are to be included with this contractor.

M.

The structure is assumed to be designed to account for this requirement.

- Revise Turner requisition item 2.RR to include an allowance of 100 hours of labor and 40 yards of concrete to be installed and placed by this contractor after coordination with electrician.
- The following items are to be included in the Structural Steel bid:
 - The structural steel contractor is to provide 100 crane picks for other trades. Turner's superintendent will authorize and track the number of picks.
 - Bid Requisition number 2.PP should be updated to include a Cost and Craft loaded schedule. This schedule is not required at the bid.
 - Any temporary staging of material on the floors will need to be coordinated with the structural engineer and protection must be provided on the floors by this contractor.
 - All lintels that are bolted or welded in place shall be furnished and installed by this contractor. Any loose lintels shall be excluded by this contractor.
 - Angles detailed on sheet S6.1 shall be excluded from this contractor.
- The following items are to be included in the Waterproofing bid:
 - Bid Requisition number 2.W should be updated to include a Cost and Craft loaded schedule. This schedule is not required at the bid.
- The following items are to be included in the Elevator bid:
 - Bid Requisition number 2.Y should be updated to include a Cost and Craft loaded schedule. This schedule is not required at the bid.

If you have any questions on this Bid Information Letter please contact me at 312.327.2917.

Concrete, Steel, Waterproofing, and Elevator Bidders:

Please review the following information and include all updated information in your bid:

- The elevator bid has been postponed indefinitely due to clarifications being made to the documents. Please do not proceed with the elevator bid. Once the clarifications are complete new documents will be issued to the elevator bidders. All other bids (Concrete, Steel, and Waterproofing) are still due at 1:00 PM on November 19th, 2009.
- The following items are to be included in the Concrete bid:
 - Exclude costs for crane picks for rebar for slab on metal deck pours.
 These picks will be supplied by the Steel Contractor.
 - For clarification, the North side precast retention basins are to be excluded from this contractor.
- The following items are to be included in the Structural Steel bid:
 - The structural steel contractor is to provide 20 additional crane picks for rebar for the slab on metal deck pours for the Concrete Contractor.
 Turner's Superintendent will authorize and track the number of picks.

If you have any questions on this Bid Information Letter please contact me at 312.327.2917.

BDINFORMATION LETTER #3

Date: 11/16/2009

YOUR BIDIS DUE Thursday November 19, 2009 Time: 1:00 FMCST

PROJECT:

Ogden Replacement Elementary School

LOCATION:

24 West Walton Street, Chicago

DOCUMENT:

2 pages for Bid Information Letter, 4 Pages of Attachments

Concrete, Steel, and Waterproofing Bidders:

Please review the following information and include all updated information in your bid:

- The following items are to be included in the Concrete bid:
 - o Exclude costs associated with BIM modeling and coordination.
 - o Excludes costs associated with Payment and Performance Bonds.
 - A new bid form has been included. This updated bid form, dated 11-16-2009 must be used for the bid. This updated bid form includes a deductive alternate relating to architectural concrete.
 - This contractor is responsible for the "Floor Isolation. See Arch" material referenced in detail 1 of sheet S4.3. Insulation shall be Type IV as specified in the section 07210.
 - The interior wall shown in sections 1 and 3 of C5.3 is integral to the precast system and should be excluded from this contractor's bid.
 - This contractor shall include 8" SOG with #4 @ 12" epoxy coated as shown on sheet S1.1A for the slab on grade above the storm water detention tank. This shall be done in lieu of what appears to be 6" SOG with WWF shown on section cuts on sheet S2.5.
 - This contractor shall include an additional 200 hours of concrete wall and floor patching over and above the specifications, as directed by Turner.
- The following items are to be included in the Structural Steel bid:
 - The list of Major Trades on pages 7-8 of Exhibit 1 to the Procedures Manual should include: Steel Fabricators (in shop or on-site).
 - Include 2 tons of steel including installation for additional reinforcement of the gymnasium floor, not shown on drawings.
 - At columns identified as CX on sheet S1.5B, this contractor shall install the fabrication and installation of 6x6 stainless steel tubes, 10' tall.

- This contractor shall exclude all costs associated with the grating and support angles shown on detail 10 of sheet S2.5.
- As detailed in Turner Bid Requisition, Item 2H, this contractor shall include the fabrication and installation of all steel, including all washers, nuts, and bolts shown on sheet S4.3.
- This structural steel contractor shall exclude any the building stairs.
 This scope of work will be by the miscellaneous metals contractor.
- For clarification, RD2 roof decking shall have an 18 ga flat plate and shall be cellular acoustical deck.

Bid Information Letter #04 will be issued by 3:30pm tomorrow (11/17/09). This letter will include information relating to the following:

- What the "Dead Load" acting on the double "Tees" will be.
- The specification for the geofill cellular concrete.

If you have any questions on this Bid Information Letter please contact me at 312.327.2917.

Sincerely,

Adam Dell

Concrete, Steel, and Waterproofing Bidders:

Please review the following information and include all updated information in your bid:

- The following items are to be included in the Concrete bid:
 - This contractor shall exclude installing a vapor barrier under the parking level slab.
 - Per Turner's bid requisition, all insulation is to be provided by this Concrete Subcontractor, including all insulation at two sided forms at the entire depth of the perimeter wall.
 - Per Turner's bid requisition, all slab on grade concrete is to be placed via a concrete pump.
 - Sheet S.1.1.2, Detail 2, The "East Foundation Wall Elevation" appears to show a full height concrete wall running along Column Line 12.5, between Column Lines A-C – this is not correct. The wall should be constructed per detail 4 on sheet S2.4.
 - Please disregard BIL #3 item described as: "This contractor shall include 8" SOG with #4 @ 12" epoxy coated as shown on sheet S1.1A for the slab on grade above the storm water detention tank. This shall be done in lieu of what appears to be 6" SOG with WWF shown on section cuts on sheet S2.5." Provide SOG as shown in bid documents, sheet S2.5.
 - Provide 2" thick concrete topping over pre-cast double tee system for the South West water detention basin as shown in detail A6 of sheet AS4.1.2.
 - For clarification, BIL #2 item described as "For clarification, the North side precast retention basins are to be excluded from this contractor."
 This is meant to exclude the Pre-Cast walls only. This subcontractor is to include slab on grade and side walls, including forming, water stopping, and 110 yards of concrete and 2 tons of reinforcing steel.

P

- As detailed in Turner's bid requisition, all insulation at and below grade are to be included with this subcontractor. This includes insulation shown on page AS4.1.4.
- For clarification, for Unit Pricing please provide separate unit prices for providing 4000 PSI concrete for foundations, slab on metal deck, and site concrete (a total of 3 unit prices).
- For clarification, all waterproofing and insulation shown above grade on the exterior masonry wall is to be excluded by this contractor (to be provided by Masonry contractor).
- The following items are to be included in the Structural Steel bid:
 - This structural steel contractor is to exclude the steel plate and angle shown in detail 4 of sheet S2.4.
 - As detailed in the Turner requisition, specification section 05500 is a secondary specification, which is being referenced for coordination. Specific scope items in section 05500 are to be excluded from the Structural Steel contractor.
 - This structural steel contractor is to exclude the masonry clips shown in details 3 and 4 of sheet \$4.3.

If you have any questions on this Bid Information Letter please contact me at 312.327.2917.

Sincerely.

Adam Dell

Ogden Replacement Elementary School

LOCATION:

24 West Walton Street, Chicago

DOCUMENT:

2 pages for Bid Information Letter, 3 Page of Attachments

Concrete, Steel, and Waterproofing Bidders:

Please review the following information and include all updated information in your bid:

- The attached Updated Sheets are to be included in the bid:
 - o S0.3 dated 11.19.2009
 - o Detail 16 of sheet \$4.1
 - Detail 1 of sheet S4.7
- For clarification: All updated sheets (dated 11.19.2009) issued in BIL #5 and BIL #6 are to be used for clarifications noted in RFI and BIL references. Updated details and sheets referenced in these drawings that have not been provided should be excluded from the bid.
- The following items are to be included in the Concrete bid:
 - As an update to the design load on the precast double tees referenced in BIL #5. This contractor shall provide the precast double tees to account for loading as detailed in updated sheet \$0.3 dated 11.19.2009.
- The following items are to be included in the Structural Steel bid:
 - General note #13 on sheet S1.5B dated 11.19.2009 should reference "<A>" in lieu of "<C>". Please reference attached detail 1 of sheet S4.7 and detail 16 of sheet S4.1 for further clarification of General notes #13 and #14.
 - For Clarification: The following Turner answers shall be included in this subcontractors bid:
 - Question: Per item FF of the 5100 Purchase Requisition: "City of Chicago" approved safety mesh; do you have a manufacter's part number or picture of what is acceptable? Answer: No specification provided. The material shall meet the requirements of the City. The material should be similar to the mesh used in other downtown projects.
 - Question: Per item FF of the 5100 Purchase Requisition: "Include 2x4 continuous wood <u>anchoring</u> bottom of mesh to the floor slab between all columns". Our assumption is that we would be responsible to furnish the

P

safety cable system with an approved mesh by the City of Chicago and additionally responsible to fasten onto the 2x4 (furnished by carpenter), is my assumption correct? Please advise. **Answer:** This entire system should be furnished and installed by the structural steel contractor, including the 2x4.

- Question: Per BIL-01: The steel contractor is to include (20)-steel picks for rebar, this is inclusive and shall not be listed as an alternate, as my assumption correct? Please advise. . Answer: This is correct.
- Question: Per BIL-02: The steel contractor is to include (100)-steel picks for other trades, this is inclusive and shall not be listed as an alternate, as my assumption correct? Please advise. Answer: This is correct.
- Question: Per BIL-01: "All lintels that are bolted or welded in place shall be furnished and installed by this contractor. Any loose lintels shall be exluded by this contractor". We're assuming this implication for lintels that are welded or bolted pertains to structural lintels (bolting or welding onto our steel), is our assumption correct please advise. Additionally, we are translating loose lintels (misc. metals spec. 05500) as those that are masonry bearing and or shelf angles that get anchored to CMU also please advise. Answer: This is correct.
- Question: Per BIL-03: "The list of Major Trades on pages 7-8 of Exhibit 1 to the Procedures Manual should include: Steel Fabricators (in Shop or on-site)".
 We will use this collectively (both field & site) and implement accordingly onto the Award Criteria worksheet. Please confirm. Answer: This is correct.
- Question: Per BIL-03: "Include 2 tons of steel including installation for additional reinforcement of the gymnasium floor, not shown on drawings", this is inclusive and shall not be listed as an alternate, as my assumption correct? Please advise. Answer: This is correct.
- Question: Per The Ogden School Bid Requisition letter P adds 2 tons of material and letter Q adds 3 tons, and BIL #3 adds 2 tons. Then BIL #5 adds 30 tons. Am I correct in assuming that you would like 37 tons added to the job? Or does the 30 cover the entire job? Answer: A total of 37 tons to be provided, as detailed in the individual items.
- The following items are to be included in the Waterproofing bid:
 - Reinforcing materials for fluid applied waterproofing detailed on the architectural drawings shall be included in this contractors bid.
 Reinforcing materials shall be compatible with the fluid applied product, and shall be the reinforcing material that is recommended by the specified fluid applied waterproofing manufacturer.

If you have any questions on this Bid Information Letter please contact me at 312.327.2917.

SCHEDULE 8 - Disclosure Of Retained Parties

Pursuant to Resolution No. 5339, as amended by Resolution No. 5371, of the Board of the Public Building Commission of Chicago, the apparent 1st low and the apparent 2nd low Bidder are required to submit a fully executed Disclosure of Retained Parties within five (5) days of their respective receipt of notice that they are the apparent 1st and 2nd low bidders.

A. Definitions and Disclosure Requirements

- As used herein, "Subcontractor" means a person or entity that has any contract or lease with the Public Building Commission of Chicago ("Commission").
- 2. Commission contracts and/or qualification submittals must be accompanied by a disclosure statement providing certain information about any lobbyists whom the Subcontractor has retained or expects to retain with respect to the contract or lease. In particular, the Subcontractor must disclose the name of each such person, his or her business address, the name of the relationship, and the amount of fees paid or estimated to be paid. The Subcontractor is not required to disclose employees who are paid solely through the Subcontractor's regular payroll.
- 3. "Lobbyists" means any person a) who for compensation or on behalf of any person other than himself undertakes to influence any legislative or administrative action, or b) any part of whose duties as an employee of another includes undertaking to influence any legislative or administrative action.

B. Certification

Subcontractor	hereby	certifies	as	follows:
---------------	--------	-----------	----	----------

1.	This Disclosure relates to the following transaction NEW CANGRUCTION	
	Description of goods or services to be provided under Contract PS1497 - 060av REPLACEMENT ELEMENTARY SCHOOL	
	FURNISH, FABRYLATE 9 ERECT STRUCTURAL STEEL + DECK	

4. Name	_ t	
	CARLO STEEL CORPORATION OF	Subcontractor
_		

 EACH AND EVERY lobbyist retained or anticipated to be retained by the Subcontractor with respect to or in connection with the contract or lease is listed below. Attach additional pages if necessary.

Check here if no such persons have been retained or are anticipated to be retained:

Retained Parties:

Name	Business Address	Relationship (Lobbyists, etc.)	Fees (indicate whether paid or estimated)
METRU POUTAN		SUBCENTRACTOR	650,000

- The Subcontractor understands and agrees as follows:
 - a. The information provided herein is a material inducement to the Commission execution of the contract or other action with respect to which this Disclosure of Retained Parties form is being executed, and the Commission may rely on the information provided herein. Furthermore, if the Commission determines that any information provided herein is false, incomplete, or inaccurate, the Commission may terminate the contract or other transaction, terminate the Subcontractor's participation in the contract or other transactions with the Commission.
 - b. If the Subcontractor is uncertain whether a disclosure is required, the Subcontractor must either ask the Commission whether disclosure is required or make the disclosure.
 - c. This Disclosure of Retained Parties form, some or all of the information provided herein, and any attachments may be made available to the public on the Internet, in response to a Freedom of Information Act request, or otherwise. The Subcontractor waives and releases any possible rights or claims it may have against the Commission in connection with the public release of information contained in the completed Disclosure of Retained Parties form and any attachments.

Annual Certificate Expires: Vendor Number:

June 1, 2010 1036118

Dear Mr. Carlo:

Congratulations on your continued eligibility for certification as a **MBE** by the City of Chicago. This **MBE** certification is valid until **June 2013**; however your firm must be revalidated annually. Your firm's next annual validation is required by **June 1, 2010**.

As a condition of continued certification during this five year period, you must file a No-Change Affidavit within 60 days prior to the date of expiration. Failure to file this Affidavit will result in the termination of your certification. Please note that you must Include a copy of your most current Federal Corporate Tax Return. You must also notify the City of Chicago of any changes in ownership or control of your firm or any other matters or facts affecting your firm's eligibility for certification.

The City may commence action to remove your firm's eligibility if you fail to notify us of any changes of facts affecting your firm's certification or if your firm otherwise fails to cooperate with the City in any inquiry or investigation. Removal of eligibility procedures may also be commenced if your firm is found to be involved in bidding or contractual irregularities.

Your firm's name will be listed in the City's Directory of Minority Business Enterprises and Women Business Enterprises in the specialty area(s) of:

Structural Steel Fabrication and Erection; Steel Service Center; Construction Management Demolition

Your firm's participation on City contracts will be credited only toward MBE goals in your area(s) of specialty. While your participation on City contracts is not limited to your specialty, credit toward MBE goals will be given only for work done in the specialty category.

Thank you for your continued interest in the City's Minority and Women Business Enterprise Programs.

Sincerely,

Mark Hands

Managing Deputy Procurement Officer

RE: Ogden Elementary Replacement School

Dear PBC,

As per your request in reference to the category on the Schedule C that requires a brief explanation when sub-subcontracting more than 10% of the contract amount we have listed the following. As an attachment to our Schedule C herewith:

We (Carlo Steel Corporation) are a certified City of Chicago MBE & a Certified AISC Fabricator. We are sub-subcontracting approximately 30% of the contract amount to that happens to be City of Chicago certified MBE as well. We are fabricating the building's structural steel including, purchasing all materials. We TRO PO-/ TKY will erect the structural steel & deck for us.

Sincerely,

Nelson Carlo President

Timothy Caballero, President Metropolitan Steel, Inc. 1931 East 177th Street Lansing, Illinois 60438

Dear Mr. Caballero:

The City of Chicago Department of Procurement Services ("Department") has undertaken an evaluation of procurement policies and procedures including those utilized within the M/WBE and DBE certification unit. In light of this evaluation, the Department extends your MBE certification until December 1, 2009.

The Department may request additional information from you prior to the expiration of the courtesy period. This information will assist us in making a determination on the recertification of your company. You will receive additional information from the Department in the coming days.

As you know, your firm's participation on contracts will be credited only toward MBE in the following specialty area(s):

Erection and Repair of Structural Steel; Installation of Metal Deck; Welding and Iron Work, Precast Concrete Contractor

If you have any questions, please contact our office at 312-742-0766.

Sincerely,

Mark Hands

Managing Deputy Procurement Officer

PUBLIC BUILDING COMMISSION OF CHICAGO Ogden Replacement Elementary School

SCHEDULE E - Request for Waiver from MBE WBE Participation
Date: 11/23/09
Erin Lavin Cabonargi, Executive Director Public Building Commission of Chicago Richard J. Daley Center 50 W. Washington Street, Room 200 Chicago, IL 60602
Dear Mrs. Cabonargi:
RE: Contract No. PSI491
Project Title: DODEN ELEMENTARY PERLACE MEM SCHOOL
In accordance with Section 23.01.7, the undersigned hereby requests a waiver/partial waiver from the MBE/WBE provisions. The undersigned certifies that it/we has/have been diligent in our attempt to identify potential subcontractors certified as MBE/WBE to perform work in this project, that such efforts have not been successful, and that it/we cannot meet the Minority/Women Business Enterprise contract goal. These efforts are described below and are consistent with the "Request for Waiver" provisions of the MBE/WBE Program as detailed in Section 23.01.7 as follows:
WE RESPECTFULY REQUEST THAT WHE & BE WAILED, AS WE CANNOT
PROUDE %, BASED ON ALL OF ONE EPECTOR'S QUOTE & % WEE IS LISTED.
Documentation attached: yes no_K
Based on the information provided above, we request consideration of this waiver request.
Sincerely, Signature

FORMULA FOR CHANGES

Percentage Markup and Procedures Applicable to Work Added to or Omitted From the Original Subcontract Agreement

OGDEN REPLACEMENT ELEMENTARY SCHOOL CHICAGO, ILLINOIS

Rev. 9/14/08

Predetermined Lump Sum additions and/or deletions to the Agreement are to be based upon the estimated "Net Actual Cost", plus the following maximum %'s for Overhead and Profit. The percentages for Overhead and Profit will be negotiated and may vary according to the nature, extent and complexity of the work involved. Not more than three percentages each not to exceed the maximum percentages shown below, will be allowed regardless of the number of tiers of subcontractors. That is, the markup on work subcontracted by a subcontractor will be limited to one overhead and profit percentage in addition to the prime contractor's overhead and profit percentage. On proposals for decreases in the amount of the contract, the overhead and profit will be added to the "Net Actual Cost", thereby increasing the credit that would be deducted from the price of this agreement:

	<u>Maximur</u>	<u>n % for Overhe</u>	ad & Profit
	<u>Labor</u>	Material	Sublet Work
Additions:	10%	10%	05%
Ommissions:	10%	10%	05%

TIME & MATERIAL:

Additional Work to the Contract, authorized by Turner in advance to be performed on a Time & Material Basis, is to be based upon the "Net Actual Cost", plus the following %'s for Overhead & Profit:

<u>Maximu</u> m	% for Overhe	ad & Profit
<u>Labor</u>	<u>Material</u>	Sublet Work
10%	10%	05%

Additions: **General**

- Submission of estimates and costs shall be itemized in a form satisfactory to Turner to permit ready analysis and evaluation. On Time & Material Work, daily reports in duplicate showing all field and shop labor expended and/or material delivered, shall be submitted to Turner's job staff. Invoices shall be submitted monthly.
- No overhead and profit will be permitted on the premium time portion of overtime work. 2.
- %'s shall apply to net differences in quantities for adds and deducts in any one change. 3.
- %'s applied by sub-subcontractors for Labor & Material shall not exceed those of subcontractors. 4.
- 5. "Net Actual Cost" defined:

A. **LABOR**

- Wages of labor, including foreman and general foreman, engaged in this work and directly on Subcontractor's payroll. Non-working foreman's costs shall be recovered in overhead %'s listed below.
- Engineering and drafting performed with Turner's prior approval. II.
- Fringe Benefits established by governing trade organizations. III.
- Federal Old Age Benefits, Federal and State Unemployment Taxes. IV.
- Net actual premium paid for Public Liability, Workmen's Compensation, Property Damage, and any V. other forms of insurance required by Turner.

В, **MATERIAL**

- Net cost of construction materials and supplies delivered to site, including applicable Sales and/or Use Taxes, transportation costs, trade and cash discounts. (Note: Sales Tax is not applicable to transportation costs).
- Costs of a special nature, approved in advance by Turner, such as for riggers, labor transportation, H. equipment rentals, royalties, permits, and other expenses of this nature.
- 6. %'s shall include the following overhead costs:
 - Α. Supervision and Executive Expenses (both field and office supervision).
 - Small tools; incidental scaffolding, blocking, shores; appliances; subcontractor's trucks & drivers; etc.; and В. the expense of maintaining same.
 - Administrative expenses clerical, accounting, etc., both at the Project and in the Subcontractor's office. C.
 - Project Managers, Engineering Costs, Shop Drawings, Proposal Preparation Review, Expediting Costs, etc. D.
 - Taxes required to be paid by the Subcontractor, but not included under the aforementioned "Net Actual E.
 - Foreman not directly performing physical performance of the work (non-working foreman). F.
- 7. %'s shall include all profit.
